

Federal Communications Commission

Subject : Request for dismissal of FCC ID : I28-W2WLAN11G

To whom it may concern:

The purpose of this letter is to request for dismissal of change of ID from FCC website for FCC ID: **I28-W2WLAN11G**.

The reason for this dismissal is because applicant decided to file for new FCC ID application instead of Change of ID.

Due to possible of alter output power , Change of ID is not appropriate for its purpose.

Therefore , Applicant would like to dismiss the approved Change of ID so that it can re use the same FCC ID for future new application.

Please kindly contact me if you have any questions.

Thanks and best regards
