Re: Technical Justification Letter Pertaining to FCC ID:I4L-MS3871, IC: 3715A-MS3871

Gentlemen:

This is to justify WLAN 802.11b/g/n 1T1R+BT2.1 EDR COMBO SLIM MODULE, Model Name: MS-3871 is installed in a different portable host, model number: TOSHIBA AC100, TOSHIBA Dynabook AZ. There is no change on the module hardware and the antennas used in the portable host is the same antenna type as the previous with less gain by comparing to the certified antennas included in the original modular approval, and output power remains unchanged. Therefore EMC tests are not performed.
