

## 1.2. Operation Description

The EUT is a PND. The operation frequency is from 88.1 to 107.9MHz with FM modulation. 199 manually selectable channels were built in the EUT.

The channels are separated by 100kHz. The signals are modulated by FM. RF signals are transmitted from the Dipole antenna. DC 12V-DC24V shall be provided for EUT operation.
