Operational Description of the equipment
FCC ID: I4L-MS6850

MSI BTMS (MS-6850) Blueooth Mousebrings wireless convenience to your computer. You get optical precision control of your mouse from anywhere within 10 meters of your Media Center, desktop, notebook. For longer battery life, the BTMS features a 10-seconds idle power-down mode, with instant power-up on mouse use. An optional Bluetooth USB dongle is required if your computing device is not Bluetooth-enabled. The dongle enables you to connect up to seven other Bluetooth devices to your computer.
