

## **FCC ID: I6HGTOFM200202 Product Description**

The Equipment Under Test (EUT) is a receiver build in a digital board, operating at 318MHz. The EUT is power by 5V d.c. (supplied from digital board powered by 12V car battery) After it has received control signal from remote transmitter, the digital board would demodulate the signal data.

The Model: MM202 and FM202 are the same as the Mode: MM202 in hardware aspect. The difference in trade name and Model number serves as marketing strategy.

Antenna Type: external antenna

The external solid wire antenna (10") was assembled in the equipment under FCC tested and marketing.

For electronic filing, the brief circuit description is saved with filename: Technical Description\_MM202.pdf

## **Related Submittal(S) Grants**

This is an application for Certification of a receiver. The transmitter, associated with this receiver, has FCC ID: N9KSMARTECDO201TX and has been granted.
