Re: FCC ID: I6HWWS001

To Whom It May Concern:

The following application is submitted on behalf of our client, GTO Access Systems, LLC, for evaluation of their model 10009364 for certification under FCC Part 15.247.

The 10009364 is an 802.11b/g/n Wi-Fi Wall Station (WWS) for a garage door opener (GDO). The wall controller connects to local Wi-Fi network that has access to the internet. Users can control and monitor the GDO status by means of a smart phone App that connects to the WWS via back end cloud service. No options are available for this product.

The 10009364 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive style with a large 'R' and a distinct 'W'.

Sam Wismer
