

ID Label/Location

FCC ID: IA9LPT900

FCC ID Drawing and Location

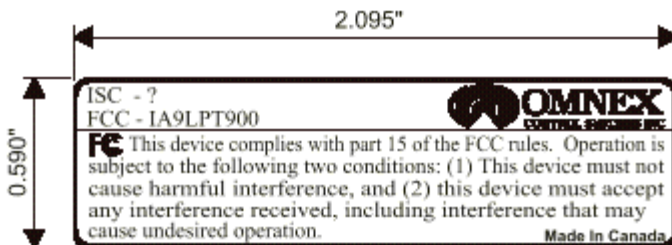

The proposed FCC ID label will be affixed to the outside case of the products into which it is installed. The characteristics of the label shall be as follows:

- Material:** 3M 7983 Silver Polyester, clear UV overcoat.
- Color:** Black on gray background.
- Adhesive:** CW adhesive

Here is a picture of a typical product in which the LPT900 module would be used showing the location of the FCC label. The label shown is for an older product.

ENGINEERING DRAWING OF PROPOSED LABEL. THE ISC NUMBER WILL BE ADDED WHEN AVAILABLE:

not to Scale
