Statement of Similarity of L-3 AToN to Tideland AToN

Part Number: ATN01-300-XX

The AToN is designed and manufactured by L-3 Communications Aviation Recorders and produces models for Tideland and Zeni Corp.

The AToN (L-3) P/N ATN01-300-XX is identical to AToN (Tideland) P/N ATN01-311-XX except for the Tideland interface.

Hardware differences

1. All current models of the AToN offered by L-3 utilize the same core electronics (CPU board and RF board).
2. 3rd party developers (Tideland, Zeni) provide their own external interface. AToN testing by L-3 included all external interfaces.

Software differences:

1. None on base CPU and RF boards.

Mechanical differences

1. L-3 and Tideland AToN units share same mechanical enclosure.
2. Zeni AToN units have a separate mechanical enclosure.

The FCC Test Report GM28024f fully applies to the ATN01-300-XX L-3 AToN based on its configuration similarity to the ATN01-311-XX.
