

PRODUCT DESCRIPTION

Description	: Creative Gigaworks G550 Wireless (model MF4080) is a 5.1 multimedia speaker system for audio playback with PCs and DVD home theatre systems. The speaker is capable of producing 36W per satellite output and 130W for subwoofer. The main amplifiers for front channels and subwoofer are located within the subwoofer box and an external volume control pod controls the system. The rear channels are wireless and utilize 2.4GHz digital technology. The wireless transmitter is housed within the volume control pod whereas the wireless receiver is housed together with the rear channels amplifier and power supply. The satellite, control and audio input cables connected to the product are not longer than 3m.
Manufacturer	: Creative Technology Ltd
Model Number	: MF4080
Serial Number	: Nil
Microprocessor	: NEC - uPD78F0501, VConnect/Open Solution – DWM3100, PI – TOP249Y
Operating Frequency	: 132KHz(jitter), 330KHz, 12.288MHz, 16MHz, 20MHz, 32MHz,
Clock /Oscillator Frequency	: 132KHz(jitter), 330KHz, 12.288MHz, 16MHz, 20MHz, 32MHz,
Port / Connectors	: DSUB15 – Volume Control Pod RCA x 6 – Audio inputs Speaker Push Terminal x 5 pairs – satellite cable output 4 pole stereo socket – Aux input 3 pole stereo socket – Headphone output AC mains socket with fuse holder x 2 – Power mains input
Rated Input Power	: 230Vac, 50Hz, 1A 120Vac, 60Hz, 2A (Others – TBA)
Accessory	: Dual RCA to RCA cable x 3 4 pole to 4 pole stereo cable x 1 Power cord x 2 Satellite cable x 5 Satellite table stand and screw x 5
