**BTS-588**

## PRECAUTIONS

1. Do not open the transmitter case. By doing so, it will void the warranty.
2. Do not leave the system in a location near heat sources such as airducts or dash boards.
3. Do not leave the system in a location subject to direct sunlight, excessive dust, moisture, rain, extreme mechanical vibration or shock.
4. Do not use alcohol, benzine or thinner to clean the headphones.

**IMPORTANT NOTE:** To comply with the FCC RF exposure compliance requirements, the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. No change to the antenna or the device is permitted. Any change to the antenna or the device could result in the device exceeding the RF exposure requirements and void user's authority to operate the device.

**Notice :** The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

### FCC INFORMATION

The Federal Communication Commission Radio Frequency Interference Statement includes the following paragraph:

The equipment has been tested and found to comply with the limits for a Class B Digital Device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The user should not modify or change this equipment without written approval from VuPoint Solutions Inc. Modification could void authority to use this equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device does not cause harmful interference.
2. This device must accept any interference received, including interference that may Cause undesired operation.

Transmitters FCC ID: IERBTS-588

## OVERVIEW

The **DIGITAL WIRELESS STEREO HEADPHONE SYSTEM** utilizes the latest wireless technology which enables you to enjoy music anywhere around your computer. You can simply connect the supplied transmitter to any USB port available. You can wear the headphone and listen to quality music without disturbing others.

1.Power indicator LED 2.Power switch 3.Volume control 4.Fine-tune

~1~

## Environment

Environments always influence the receiving quality of your headphones. The best environment for using your headphones is where there are no other cordless products in use, such as microwave ovens and dish dryers.

Cement walls and wooden walls absorb radio waves which decreases the receiving quality. Open space without barriers is the best environment for your headphones.

## Quick installation

1. Connect audio device to BT transmitter via 3.5mm plug.

2. Install new batteries into the headphone and power on.

3. Launch any music program and play music. Adjust the volume control on the left side.

4. Receiving positions: The headphone receives audio signals omni-directionally within effective ranges. For best reception, use the headphone in line-of-sight from the transmitter.

## FEATURES

1. This system uses Bluetooth technology giving you the freedom to move around surrounding areas.
2. The headphone receiver can receive signals up to 20 meters away from transmitter in line-of-sight, omnidirectional 360°.
3. You can listen to your favorite music anywhere and anytime without disturbing others.
4. Headphone uses a power on/off switch with L.E.D. Indicator.

## SPECIFICATIONS

### BT-588

1 Frequency	2402MHz ~ 2480MHz	
2 Modulation Type	FSK	Adaptive FHSS
3 Antenna	PCB Printed	
4 Frequency Response	20Hz ~ 20KHz	
5 SN Ratio	≥80dB	
6 THD	0.02%	Typical
7 Audio Output Power	25mW	Typical
8 Volume Interface	Up/Down dial	
9 Power Interface	On/Off button	
10 Standard Compliance	Bluetooth AV Profile	
11 Certifications	FCC, CE, BQB, E-Mark	
12 Range	About 5m	Result may vary if other wireless device is at presence
13 Operating Temperature	-10 ~ +50 Degree Celsius	
14 Storage Temperature	-40 ~ +85 Degree Celsius	
15 Battery Life	About 7hrs	Playing continuously
16 Type	Open Air Dynamic	
17 Speaker Size	40mm Mylar Cone	
18 Weight	165g +/- 5g	

### BT-26

Frequency	2402MHz ~ 2480MHz	
Modulation Type	FSK	Adaptive FHSS
Antenna	PCB Printed	
Frequency Response	20Hz ~ 20KHz	
SN Ratio	≥80dB	
THD	0.02%	Typical
Audio Output Power	25mW	Typical
Operating Temperature	-15 ~ +65Degree Celsius	
Storage Temperature	-40 ~ +85 Degree Celsius	
Volume Interface	Up/Down dial	
Power Interface	On/Off button	
Standard Compliance	Bluetooth AV Profile	
Certifications	FCC, CE, BQB, E-Mark	
Weight	90g +/- 5g
