
Declaration for the 15.247(g) and 15.247(h) statements

Date: August 7, 2014

United States Federal Communications Commission
Industry Canada
MET Laboratories, Inc.

Re: 15.247(g) and 15.247(h)

To Whom It May Concern:

Nielsen Audio Models DA118 and DA120 comply with 15.247, including 15.247(g) and 15.247(h).

These units use Qualcomm BTS4025 System-on-Chip (SoC), with full support for the Bluetooth 2.1 + Enhanced Data Rate (EDR) specification. Confirmation of the support of the aforementioned Bluetooth 2.1 + Enhanced Data Rate (EDR) specification can be found at the following link:

<http://www.qualcomm.com/media/releases/2008/05/28/qualcomm-introduces-next-generation-solution-better-bluetooth-experience>

As you are no doubt aware, Bluetooth 2.1 + Enhanced Data Rate (EDR) specification has the following approval standards and authorities:

North America:

Approval Standards: Federal Communications Commission, FCC, USA

Documents: CFR47, Part 15, Sections 15.205, 15.209, 15.247 and 15.249

Approval Standards: Industry Canada, IC, Canada

Documents: GL36

Approval Authority: FCC (USA), Industry Canada (Canada)

Sincerely Yours,

Allen J. Zimmerman
