Tip: Touch the screen to open options, then choose the **Front** or **Back** camera.

After you record a video, touch the screen:

- To **play** the video, touch the screen again.
- To **send** the video in a message or post it online, touch **Share**. For more info on sharing your videos, see "Share Your Video Gallery" on page 34.
- To **delete** the video, touch **Delete**.

Play Your Videos

Find it: **○** > **■** Gallery > video

Share Your Video Gallery

Find it: 🔘 > 🟴 Gallery

To send your video in a message or post online:

- **1.**Touch & hold a video, then touch **Share**.
- 2. Choose how you want to share.

Manage Your Videos

To delete a video, touch and hold a video, then touch **Delete**.

Apps

App Menu

The app menu shows you all of your applications. To open it from the home screen, touch • To close it, touch • again.

Tip: To find an app in the app menu, touch and hold Menu 📳 to open a display keypad), then type the app name.

Your phone can tell you when there's an updated app or other phone software. To install the update, just follow the instructions on your screen.

Recent Apps

Touch and hold Home (a) to see the last few apps you used, then touch the app you want. Touch Home (a) to return to the home screen.

Touch an app to open its details or install it.

Touch for a menu where you can open search, downloads, or help.

Android Market offers quick, easy access to a wide variety of applications developed specifically for the Android platform. These have been created by developers all around the world, and have been rated by your fellow Android users. In **Market**:

- To find an app, touch the search icon or Menu > Search. To download, touch the app.
- To reinstall downloaded apps or load your apps on a new device, touch **Downloads**.
- To get help, touch Menu : > Help.

 To manage or remove apps on your phone, touch Menu > Settings > Applications > Manage applications.

 Touch an app in the list, then touch Uninstall (for apps you downloaded), Clear cache, or other options.

If you have trouble removing an app, turn off your phone, then turn it back on—when you see the "Motorola" logo during power-up, press and hold both volume keys. Your screen will show **Safe Mode** in the lower left corner, and you can remove the app.

Update My Phone

You can check, download, and install phone software updates.

You may get an automatic notification of an available update on your phone. Simply follow the instructions to download and install.

To manually check for updates, touch Menu :: > Settings > About phone > System updates.

Your phone downloads any updates over your mobile network. Remember, these updates can be quite large (25MB or more) and may not be available in all countries. If you don't have an appropriate data plan, or mobile network updates are not available in your country, you can update using a computer.

Location Apps (GPS)

AT&T Navigator

AT&T Navigator, with GPS-enabled directions, gives you turn-by-turn voice and on-screen driving directions, navigates around traffic congestion with automatic re-routing. Plus you can locate and navigate to restaurants, Wi-Fi® hotspots, and more, from more than 10 million business listings.

Note: AT&T Navigator requires a separate subscription, and performs best with a vehicle adaptor and an antenna mounted on a window without heavy UV sun protection.

Find it: **○** > **♦** AT&T Navigator

1.Enter your (mobile) phone number, name, and AT&T Navigator PIN, then touch **Login**.

You received your AT&T Navigator PIN in a text message when you activated your subscription. To activate a subscription, visit att.com/navigator.

- **2.**After you log in, touch **Drive To**.
- 3. Touch Address, then touch Type It.
- **4.**Enter the address for your destination. AT&T Navigator validates the address and generates your route.

For details about AT&T Navigator, contact AT&T.

AT&T Features & Services

Features & Services

- AT&T Navigator[™]—Get driving directions quickly and conveniently. AT&T Navigator requires a separate subscription.
- AT&T Code Scanner—View mobile
 web sites & video clips, get coupons or
 learn more about your favorite products
 using 2D QR and Data Matrix barcodes
 as well as 1D UPC codes that you find in
 magazines, in stores, and online.
- U-verse Mobile Live TV—Transform your phone into a wireless TV. U-verse Mobile Live TV requires a subscription and data plan, and is not available in all areas. Programs are subject to change.

More Information

For information on setting up or using these services, visit att.com/Tutorials. To

add these services, contact your local AT&T store or call 1-800-331-0500.

Web

Quick Start: Browser Find it: > Browser

Press Menu to open the address bar and a menu for bookmarks, windows and more

The **ATRIX 4G** has an Adobe® Flash® Player for rich web browsing any time.

To go to a web page in the browser, touch Menu : then enter the URL address in the box at the top of the screen. In your home screen, you can enter an address in a Search widget.

A \subseteq at the right of the address bar means you can add the page's RSS news feed to

a News app or widget: Touch Menu 🔡 > More > RSS Feeds

Connect

Your phone uses the mobile phone network (over the air) to automatically connect to the web.

Note: Your service provider may charge to surf the web or download data.

To use a wireless network, touch Menu so > Settings > Wireless & networks.

Touch Wi-Fi to turn it on, then touch Wi-Fi settings to search for nearby wireless networks. Touch a network to connect. There's more in "Wi-Fi Networks" on page 47.

Web Touchscreen Tips

Zoom To zoom in or out, slide two fingers apart or together

Browser Options

Touch Menu 🖶 to see browser options:

options	
Bookmarks	Shows a list of your bookmarks. Touch Add bookmark to add the current page to your list.
New window	Opens a new window.
Refresh	Reloads the current page.

options	
More	Shows browser options, like Find on page, Select text, Page info, Share page, Downloads, and Settings.

Download Apps

Note: All apps downloaded are stored in your phone memory.

To download apps:

- 1.If you want to download apps from any web page, touch Menu : > Settings > Applications > Unknown sources.
- **2.**To launch the browser, touch **()** > **() Browser**.
- **3.**Find the app you want to download and touch the download link.

Manage Your Downloads

To view files or applications you have downloaded, touch > Browser > Browser > Some > Downloads.

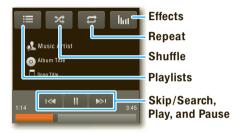

To clear your download history, touch Menu : > Clear list. To cancel, touch Menu : > Cancel all downloads.

Music

Quick Start: Music

Just open your music library and choose what you want.

Find it: > Music, then choose a song

Things You Need

To put music on your computer and then load it on your phone, you need a:

- Computer: Microsoft® Windows® PC, or Apple® Macintosh®
- Cable: USB data cable, to connect your phone and computer
- Music: Your phone can play MP3, M4A, AAC, ACC+, MIDI, WAV, and OGG Vorbis files. Your phone does not support DRM protected files.
- Headphones: You can go wireless with Bluetooth® stereo headphones or speakers (see "Wi-Fi®, DLNA™ & Bluetooth® Connections" on page 46).

Get Music

Import a CD to Create Music Files

You can import (rip) a CD to create music files on your computer, then transfer the music files to your phone's memory. To do this, you can use Microsoft® Windows® Media Player (see www.microsoft.com).

- **1.**On your computer, open Windows Media Player.
- **2.**Insert a music CD into the computer's CD ROM drive.

Note: Make sure you change the format to MP3 in "Tools > Options > Rip Music (tab) > Format MP3".

- **3.**In the Windows Media Player window, click on the "Rip" tab.
- **4.**Highlight the songs you want to import, and click "Start Rip".

The songs are imported to the Windows Media Player Library.

Transfer Music Files to Your Phone

You can transfer music files from a computer to your phone's memory with Windows® Media Player.

Tip: To transfer music files with other programs, see "Memory Card & USB" on page 51.

Note: Copyright—do you have the right? Always follow the rules. See "Content Copyright" in your legal and safety information.

1.Connect a Motorola micro USB data cable from your phone's micro USB port to a USB port on your computer. Your phone should show **∲** in the status bar.

Note: Your phone supports Microsoft® Windows® XP, Windows Vista®, and Apple® Macintosh®. Other operating systems may not be compatible. If your computer needs to download drivers for your phone, visit <u>www.motorola.com/support</u>. If a camera connection window opens, just close it.

- **2.**Your phone shows a USB connection dialog. Touch **USB drive**.
- **3.**On your computer, open Windows Media Player.

- **4.**On the "Sync" tab, select "More Options". Under "Device", select your phone.
- **5.**Select "Properties", check the "Create folder hierarchy on device" box, and click "OK".
- **6.**Drag your music files over to the "Sync List" and touch "Start Sync".

Transfer Music Files with My Computer

You can transfer music files from a computer to your phone's memory with My Computer.

1.Connect a Motorola micro USB data cable from your phone's micro USB port to a USB port on your computer. Your phone should show **◊** in the status bar.

Note: Your phone supports Microsoft® Windows® XP, Windows Vista®, and Apple® Macintosh®. Other operating systems may not be compatible. If your computer needs to

- download drivers for your phone, visit www.motorola.com/support. If a camera connection window opens, just close it.
- **2.**Your phone shows a USB connection dialog. Touch **USB drive**.
- **3.**Find "Removable Device" (your phone) in the "My Computer" window.
- **4.**Drag and drop your music to a folder on your phone.

Tip: To help manage your music, create a "Music" folder on your phone.

5.When you're done, use the "Safely Remove Hardware" feature to finish.

Play Music

Music Library

Open your music library, then select what you want to play.

Find it: > Music

Your music is stored by artists, albums, songs, and playlists. Touch a category, then touch the song or playlist you want to play. Touch Menu > Party shuffle to randomly play all your songs, or touch Search to look for a song.

Music Player Controls

controls	
play/pause	Touch /
previous/next	Touch ✓/▶.
fast forward/rewind	Touch & hold ⋈ /▶.
view playlist	Touch 🗮 .
shuffle	Touch ⊀ .
repeat	Touch ♂ .
volume	Press the side volume keys.

controls	
view library	Touch Menu 🔡 > Library .
turn shuffle on/off	Touch Menu 📳 > Party shuffle .
add to playlist	Touch Menu 🔡 > Add to playlist.
use as ringtone	Touch Menu 🔡 > Use as ringtone .
delete	Touch Menu 📳 > Delete .

Tip: You can purchase a Motorola car dock to turn your phone into an on-board navigator, handsfee device, music player and more, all while recharging it. Follow the dock's instructions to dock your phone. Then, touch ○ > ○ CarDock and choose an option before you drive.

Hide, Wake, Turn Off

Touch Home (a) to use another app. Your music continues to play.

When you see in the status bar a song is playing, flick down to see details. Touch the song to return to the music controls.

To turn off your music touch

Playlists

To add a song from the music library to a playlist, touch and hold the song then touch **Add to playlist**. Choose an existing playlist, or touch **New** to create a new playlist.

To edit, delete and rename playlists, touch and hold the playlist in the music library.

Wi-Fi®, DLNA™ & Bluetooth® Connections

Quick Start: Wireless

Find it: Menu :: > Settings > Wireless & networks

In Wi-Fi settings:

Connect to a Wi-Fi network for fast Internet access and downloads. You can connect to DLNA Certified devices on the network to share media files: **O** > **Media Share**.

See <u>www.attwifi.com</u> for terms, conditions & charges.

• In Bluetooth settings:

Touch **Bluetooth** to turn it on and scan for a Bluetooth headset or car kit, then touch a device that was found to connect it.

• In Mobile hotspot:

Make your smartphone a mobile hotspot to share broadband with up to 8 Wi-Fi enabled devices. This requires an appropriate data plan with tethering.

Tip: Airplane mode turns off your Bluetooth, Wi-Fi, and network connections—useful when flying. Press and hold Power ① > **Airplane mode**. When you select airplane mode, all wireless services are disabled. You can then turn Wi-Fi and/or Bluetooth power

back on, if permitted by your airline. Other wireless voice and data services (such as calls and text messages) remain off in airplane mode. Emergency calls to your region's emergency number (e.g., 911) can still made.

Wi-Fi Networks

Note: Your phone comes with Wi-Fi power turned on. To turn it off, touch Menu 📆 > Settings > Wireless & networks > Wi-Fi

AT&T Wi-Fi Hot Spots: Access high speed Internet at Wi-Fi speeds in over 20,000 AT&T Wi-Fi Hot Spots. They are easy to use. Just follow these easy steps:

1.Make sure Wi-Fi power is on and walk into an AT&T Hot Spot. If you need to turn on Wi-Fi power, touch Menu : > Settings > Wireless & networks > Wi-Fi.

2.Touch ○ > **Browser** > Menu **>** > **Go**, then type a website address.

To use some AT&T services, you might need to turn off Wi-Fi® power.

AT&T Hot Spot Locator: To find Hot Spots, touch ○ > ○ AT&T Wi-Fi Hot Spots, or visit www.attwifi.com and select "Find a Hotspot."

Standard Wi-Fi networks: You can still connect when AT&T Wi-Fi Hot Spots aren't available:

- 1.Touch Menu : > Settings > Wireless & networks > Wi-Fi settings.
- 2.Touch Wi-Fi to turn on and scan. If Wi-Fi is already on, touch Menu :> Scan.
 Your phone lists the networks it finds within range.

Tip: To see your phone's MAC address or other Wi-Fi details, touch Menu > **Advanced**.

3.Touch a network to connect. If necessary, enter pass codes from the network administrator and touch **Connect**.

When Wi-Fi power is on and your phone finds a network you've used, it automatically reconnects and shows ♠ in the status bar.

To turn off Wi-Fi power: Touch Menu 📆 > Settings > Wireless & networks > Wi-Fi.

Tip: Turn off Wi-Fi power to extend battery life or stop connections. Turn it off and on to search for networks.

To add a quick switch, touch and hold a blank spot on your home screen, then touch **Motorola widgets** > **WiFi toggle**.

Note: Your phone's Wi-Fi features and power levels are not allowed for outdoor operation in France. To avoid unlawful interference with radio signals, do not use

the Wi-Fi features in France unless you are indoors.

DLNA™ Media Devices

You can use DLNA Certified computers, TVs, and other devices to play or transfer the videos, pictures, and music stored on your phone. For more about DLNA (Digital Living Network Alliance), visit www.dlna.org.

- 1.Make sure your phone and another DLNA device are both connected to the same Wi-Fi® network.
- 2. Touch > Media Share
- **3.**Follow the prompts to connect your phone to the other DLNA device.

Tip: To reconnect later, you can just touch ○ > ♠ **DLNA**.

Bluetooth Handsfree Devices

Note: This feature requires an optional accessory.

Find it: Menu : > Settings > Wireless & networks > Bluetooth settings

Turn on & scan Change your phone's Bluetooth name

Let Bluetooth devices find your phone

Connect

To connect with a new device, you need to pair with it. You only need to do this once for each device—to connect again, just turn on the device.

1.Make sure the device you are pairing with is in discoverable mode.

Refer to the guide that came with the device for details.

- 2.In Bluetooth settings, touch Bluetooth to turn on and scan. If Bluetooth power is already on, touch Scan for devices.
- 3. Touch a device to connect.
- **4.**If necessary, touch **OK**, or enter the device passkey (like **0000**) to connect to the device. When the device is connected, the Bluetooth indicator **§** appears in the status bar.

Note: Using a mobile device or accessory while driving may cause distraction and may be illegal. Always obey the laws and drive safely.

After you connect:

- To reconnect with a device, turn on the device or touch the device name in the Bluetooth devices list.
- To disconnect a device, turn off the device or touch the device name in the

- devices list and touch Menu > **Disconnect**.
- To turn off Bluetooth power, touch Menu :: > Settings > Wireless & networks > Bluetooth.

Tip: Turn off Bluetooth power to disconnect devices, extend battery life, or stop connections.

To add a quick switch, touch and hold a blank spot on your home screen, then touch **Motorola widgets** > **Bluetooth toggle**.

Note: Your phone's Bluetooth features and Bluetooth Class 1 power levels are not allowed for outdoor operation in France. To avoid unlawful interference with radio signals, do not use the Bluetooth features in France unless you are indoors.

Memory Card & USB

Memory Card

You can add more space to store videos, music, and other files by installing a removable microSD memory card.

To manage memory card files, touch **O** > **Files**. Touch a file or folder to open, touch and hold a file to **Delete** or **Share**.

Note: Do not remove your memory card while your phone is using it or writing files on it.

Before you remove or format your memory card you need to unmount it. Touch Menu :: > Settings > \$D card & storage > Unmount \$D card.

To format your memory card, touch **Format SD card**.

Warning: All data on your memory card will be deleted.

USB Drag & Drop

Note: This feature requires an optional accessory.

You can use a USB cable to transfer your pictures, videos, music, ringtones and more, from your computer to the memory card in your phone:

1.Connect a Motorola micro USB data cable from your phone's micro USB port to a USB port on your computer.

Note: Make sure to connect the phone to a high power USB port. Typically, these are located directly on your computer. If a camera connection window opens, just close it. If your computer needs to download drivers for your phone, visit

- www.motorola.com/support. If a camera connection window opens, just close it.
- 2. Your phone should show **◊** in the status bar. Flick down the status bar and

touch Ψ to choose a memory card connection. You should be able to access the memory card from your computer.

- **3.**On your computer, use the "My Computer" window to find "Removable Disk".
- **4.**Click on the "Removable Disk" icon to access the memory card.
- **5.**Drag and drop your pictures, videos, music, ringtones, and more, to your phone folder. To help manage your files, you can create more folders in your phone folder.
- **6.**When you're done, use the "Safely Remove Hardware" feature to finish.

Motorola Phone Portal

Your can use Motorola Phone Portal (MPP) to connect your phone and computer with a cable or a Wi-Fi® network. Just connect

your phone to your computer over a Wi-Fi network or a USB cable.

Note: Most public Wi-Fi networks (like the ones at coffee shops) don't let devices connect to each other. In that case, you need a USB connection.

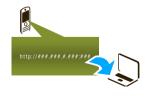

If you use a cable, your computer might install drivers (you can download drivers at www.motorola.com/su pport). If Motorola

MediaLink lauches instead, right-click (a) in your task bar, choose to launch MPP when the phone connects, then reconnect your phone to open the MPP home screen.

If you use a
Wi-Fi network,
touch ○ >

■ Phone Portal
to show an MPP
URL that you can

enter in any computer browser on the network to open the MPP home screen!

Note: MPP works best with Internet Explorer 7 or newer, with Java script and cookies enabled.

Open your recent activity (Home), Contacts, Photos, Settings, File Manager, or Support.

Show **All** recent activity, or only your **SMS** (text messages) or **Calls**.

Tools

To turn on an alarm, touch the check box.

To add an alarm, touch Menu 📳 > Add alarm, then enter alarm details.

When an alarm sounds, drag **Dismiss** to turn it off or touch the screen to snooze.

To cancel a snoozed alarm, drag down the status bar and touch the alarm name.

Tip: You can purchase a Motorola desk dock to turn your phone into an alarm clock, weather station, music player and more, all while recharging it on your desk

or night stand. Follow the dock's instructions to insert your phone. It will show the clock view:

Calendar

Your calendar events can be viewed in different ways: Touch Menu [8] > Month, Agenda, Week, or Day. When you highlight an event in the day and week views, more details appear.

The calendar on your phone can be synchronized with your Google Calendar™.

Add Calendar Events

From any calendar view, touch Menu 🔠 > **New event**. Enter event details and touch **Save**.

Manage Calendar Events

To edit an event, touch Menu : > Edit event. Edit event details, then when you're done, touch Save.

To delete an event, touch Menu : > **Delete event**.

To go to today, touch Menu 🖶 > **Today**.

Calculator

Find it: **○** > **■** Calculator

Your calculator has two views: basic and advanced. To change your views, touch Menu (**) > Advanced panel or Basic

panel. To clear history, touch Menu : > Clear history.

Accessibility

See, hear, speak, feel, and use. Accessibility features are there for everyone, helping to make things easier.

Note: For general information, accessories, and more, visit www.motorola.com/accessibility

Voice recognition

Use your voice—just touch and speak.

- Dialing and commands: Touch

 Voice Commands. To dial, say
 "Call" and then a contact name or phone number. For other commands, say a command from the list shown, like
 "Send Text" or "Go To"
- Search: Touch and hold Search Q to open voice search, then say what you

- want to search for, like "Motorola accessories".
- Text entry: Touch a text entry field to open the touchscreen keypad. Touch ♥, then say what you want to type.

Tip: Speak naturally, but clearly. Use the microphone in a similar way to a speakerphone, so no need to shout or hold the phone close to your mouth.

To change your voice settings, see "Voice settings" on page 56.

Voice readouts (TalkBack)

Note: You may be asked to download additional "text-to-speech" software (data charges may apply).

To turn on voice readouts (similar to TalkBack), touch Menu : > Settings > Accessibility. Touch Accessibility to enable the settings, then touch Voice readouts.

- Menus and screens: In menus and screens, touch an item to highlight it (the item will be read out loud), and double-touch to choose it.
 - **Note:** Touching a home screen widget or shortcut will open it.
- Dialer & text entry: As you type, each number or letter is read out loud.
- Notification: When you flick the status bar down, all notifications are read out loud.

Tip: Navigate through your apps and menus to hear how voice readouts work on your phone.

To change your voice settings, see "Voice settings" on page 56.

Caller ID

When you want to **hear** who's calling:

- Read out loud: Have your caller announced—touch Menu : > Settings
 Call settings > Caller ID readout.
- Ringtones: Assign a unique ringtone to a contact—touch Contacts, open a contact, then touch Menu > Edit. Ringtones are listed under Additional info.

To change your voice settings, see "Voice settings".

Voice settings

Personalize your voice settings:

- Voice recognition: Touch Menu 🔡
 - > Settings > Voice input & output > Voice recognizer settings. From here, you can set options like language and censorship.
- Voice commands: Touch > Woice Commands > Menu ⊕ > Settings.
 From here, you can refine recognition of

- your voice (**Adaptation**) and set options like prompts and shortcuts.
- Text-to-speech: Touch Menu > Settings > Voice input & output > Text-to-speech settings. From here, you can set options like speed and language

Volume & vibrate

• **Volume**: Touch **Volume** and use the sliders.

Tip: To set separate ring and notification volumes, uncheck **Use incoming call volume for notifications**.

 Vibrate: Select Vibrate to feel your phone ring.

Display brightness

Set a brightness level that works for you. Touch Menu (1991) > Settings > Display > Brightness. Make sure that Automatic brightness is unchecked so you can set your own level.

Touchscreen & keys

All these touch features are great, and sometimes it's nice to hear or feel your touches too. Touch Menu > Settings > Sound

- Touchscreen: To hear screen touches (click), select Audible selection.
- Keys: To feel key touches (vibrate), select Haptic feedback.
- Screen lock: To hear when you lock/unlock the screen (click), select
 Screen lock sounds.

Messages

From a simple text message to IM, email, and more. Create, send, and receive them all, in one place.

Find it: **○** > **■** Messaging > Universal inbox

And to make text entry even easier, you can use features like auto-complete, auto-correct, and auto-punctuate—touch Menu : > Settings > Language & keyboard. Of course if you don't want to type at all, then use your voice—touch ♥ on the touchscreen keypad.

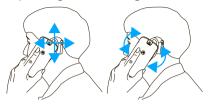

Hearing aids

To help get a clear sound when using a hearing aid or cochlear implant, your phone may have been rated for use with hearing aids. If your phone's box has "Rated for Hearing Aids" printed on it, then please read the following guidance.

Note: Ratings are not a guarantee of compatibility, see "Hearing Aid Compatibility with Mobile Phones" in your legal and safety information. You may also want to consult your hearing health professional, who should be able to help you get the best results.

- Settings: Touch Menu : > Settings
 Call settings > HAC mode settings.
 Select Microphone to optimize your phone for microphone coupling, or select Telecoil to optimize your phone for telecoil coupling.
- Call volume: During a call, press the side volume keys to set a call volume that works for you.
- Position: During a call, hold the phone to your ear as normal, and then

rotate/move it to get the best position for speaking and listening.

TTY

You can use your phone in TTY mode with standard teletype machines. Touch Menu :: > Settings > Call settings > TTY mode and select the mode you need:

- TTY full: Type and read text on your TTY device.
- TTY HCO: Hearing-Carry-Over—type text on your TTY device and listen to voice replies on your phone's speaker.

• **TTY VCO**: Voice-Carry-Over—speak into your phone and read text replies on your TTY device.

Note: You'll need a cable/adapter to connect your TTY device to the headset jack on your phone.

Refer to your TTY device guide for mode and usage information.

Apps

Want more? No problem. Android Market™ provides access to thousands of apps, and many provide useful accessibility features.

Select a category or touch Search **Q** to find the app you want.

Tip: Choose your apps carefully, from trusted sites like **Market**, as some may impact your phone's performance.

Security

Quick Start: Security

Find it: Menu 📳 > Settings > Location & security

You have lots of ways to keep your phone safe.

If you lose your phone, you can log into your MOTOBLUR account from a computer to locate your phone or clear the data on it: www.motorola.com/mymotoblur.

Screen Lock

To set your security level, touch Menu :: > Settings > Location & security > Set up screen lock:

- Pattern draw a pattern to unlock.
- PIN enter a numeric code to unlock
- Password enter a text password to unlock
- **Fingerprints** swipe your finger across the power key to unlock

Note: You can make emergency calls on a locked phone ("Emergency Calls" on page 9). A locked phone still rings, **but you need to unlock it to answer**.

Lock Pattern

To set the lock pattern, touch Menu :: > Settings > Location & security > Set up screen lock > Pattern.

Follow the instructions to draw your lock pattern.

When prompted, draw the pattern to unlock the phone.

Passcode Lock

To set the passcode, touch Menu :> Settings > Location & security > Set up screen lock > PIN.

Enter a numeric code, then touch **Continue**. Enter the code again to confirm it, and touch **OK**.

When prompted, enter the numeric code to unlock the phone.

Password Lock

To set the password, touch Menu :: > Settings > Location & security > Set up screen lock > Password.

Enter a password, then touch **Continue**. Enter the password again to confirm it, and touch **OK**.

When prompted, enter the password to unlock the phone.

Fingerprint Lock

To store your fingerprint, touch Menu 📆 > Settings > Location & security > Set up screen lock > Fingerprints.

Enter a numeric code (in case of fingerprint recognition problems), then touch **Continue**. Enter the numeric code again to confirm it, and touch **OK**.

Follow the display instructions to swipe your finger across the power button, until the phone memorizes your fingerprints.

When prompted, enter the numeric code or swipe your finger to unlock the phone.

Personalize Your Lock Screen

To change your timeout, touch Menu 🔞 > Settings > Display > Screen timeout. If you don't touch the screen or press any keys for this amount of time, the screen locks automatically. To unlock, see "Lock & Unlock" on page 62.

To change your lock screen picture, touch Menu : > Settings > Display > Wallpaper settings.

Lock & Unlock

To lock the screen/phone:

- Press Power •
- Let the screen time out (don't press anything).
- Switch the power off.

To unlock the screen/phone, press Power ①, or switch the phone on to display the lock screen.

Forgot Your Pattern or Passcode?

In the **passcode** unlock screen, press Menu > **Forgot passcode?** to unlock your phone with your MOTOBLUR email address and MOTOBLUR password.

In the **pattern** unlock screen, after you enter an incorrect pattern five times, you can touch **Forgot passcode?** to unlock your phone with your MOTOBLUR email address and MOTOBLUR password.

Lock Your SIM

Enable SIM PIN

lock > Lock SIM card. Enter your SIM PIN code

Caution: If you enter an incorrect PIN code three times, your phone locks your SIM card and asks for your PIN unlock code, contact AT&T.

Change SIM PIN

To change your SIM PIN, touch Menu 🔠 > Settings > Location & security > Set up SIM card lock > Change SIM PIN.

PUK Code

To unlock your SIM PIN, you need to enter your PIN unlock code (PUK code) when prompted.

Note: Your PUK code is provided by AT&T.

Reset

To reset your phone to factory settings and erase all the data on your phone,

touch Menu : > Settings > Privacy > Factory data reset > Reset phone.

Warning: All downloaded apps and user data on your phone will be deleted. Data on your memory card will not be deleted.

Lost, Stolen, Broken, Cleared

Don't you just hate it when your life is on your phone and it all goes wrong? Lose it, break it, reset it, or even worse - stolen! Relax, MOTOBLUR can help find your phone, clear it (if you need to) and best of all, restore all your stuff.

Note: You cannot track or clear your phone if it is turned off or broken.

Track Your Phone

To locate your phone:

- **1.**Log into your MOTOBLUR account: www.motorola.com/mymotoblur.
- **2.**On the phone profile page, follow the link to locate your phone.

MOTOBLUR locates your phone using GPS and AGPS.

Remote Clear

To wipe your phone data:

- **1.**Log into your MOTOBLUR account: www.motorola.com/mymotoblur.
- **2.**On the phone profile page, follow the link to delete data.

Warning: All downloaded apps and user data on your phone will be deleted. Data on your memory card will not be deleted.

Restore Your Phone

If you lose your phone, don't worry. Your contacts are backed up on MOTOBLUR.

To restore your contacts and account settings after a reset, remote clear, or on a new MOTOBLUR phone, just log into your existing MOTOBLUR account. Please note that text messages, downloaded

applications, call logs, and items stored on your phone will not be restored. To restore your Android Market™ apps, see "Apps" on page 35.

Icons & Battery Life

Icons

At the top of the screen, icons on the left notify you about new messages or events (flick the bar down for details). Icons on the right tell you about phone status:

8	Bluetooth	(((;	Wi-Fi
*	GPS	¥	flight mode
•	silent ring	<u></u>	vibrate ring
Ø.	mic mute	1	speakerphone
\odot	alarm set	aill	network (full)
H+	HSPA+ available	‡‡ †‡	Connected to HSPA+
5	charging		charged

Things You Can Do

Stop pocket dialing	If you put your phone in your pocket, the touchscreen might get touched and accidentally call people. To avoid this, press Power to put the display to sleep. To wake it up, press Power again. You can also set up "Security" on page 60.
Go home	Touch Home (a) to go to the home screen. There, touch Home (a) again to open the app menu.
Call again	Touch Dialer, then touch the Recent or Favorites tabs.
Open apps again	Touch and hold Home 🛕 to show the last few apps you used.

Open apps on a plane	Press and hold Power ① , then touch Airplane mode in the menu.
Open options	Touch Menu 🔡 to open your options for the current screen.
Find stuff	Press Search Q.
Skip	When you're in a list like Contacts , you can press Scroll ❖ to scroll up and down. To skip to the top or bottom of the list, press Alternate ▲ > Scroll ❖.

Battery Tips

Your phone is like a small computer, giving you a lot of information and apps, at 3G speed, with a touch display! Depending on what you use, that can take a lot of power.

Note: In very limited circumstances, such as where your phone has been exposed to extreme heat, a "Cool Down" message will appear. To avoid possible damage to your battery and phone, you should follow these instructions until the phone is within its recommended temperature range. When your phone is in "Cool Down" mode, only emergency calls can be made.

To get the most out of your battery, touch Menu (E) > Settings > Battery Manager > Battery mode, then choose the best mode for you (for details, touch the icons to the right of each mode).

Be aware that the following could reduce battery life between charges:

- recording or watching videos, listening to music or taking pictures.
- widgets that stream information to your home screen, like news or weather ("Use & Change Your Home Screen" on page 10).

- GPS use: Touch Menu : > Settings > Location & security > Use GPS satellites.
- Wi-Fi® and Bluetooth® use: Touch Menu Settings > Wireless & networks > Bluetooth or Wi-Fi.
- Email updates: Touch Messaging > Menu > Messaging settings > Email > Get new email > Every hour.
- network searching: If you are out of coverage, to keep your phone from looking for networks, press and hold Power to open the Power key menu, then touch **Airplane mode**.
- display brightness: Touch Menu > Settings > Display > Brightness > (dimmer setting).
- display timeout delay: Touch Menu : > Settings > Display > Screen timeout > (shorter setting).

Troubleshooting

FAOs

Why can't I connect my wireless network? Make sure that Airplane mode is off in the power menu (press and hold the Power ① button).

Why can't I connect to my 3G network? Try turning your phone off and back on, to make your phone search for the best local network.

Why can't I hear sound? While you are on a call or playing a media file, press the up volume key up.

Crash Recovery

If your phone stops responding, try a quick reset: Remove the battery ("Assemble & Charge" on page 2), then put it back in and turn on your phone.

Safety, Regulatory & Legal

Battery Use & Safety

Important: Handle and store batteries properly to avoid injury or damage. Most battery issues arise from improper handling of batteries, and particularly from the continued use of damaged batteries.

DON'Ts

- Don't disassemble, crush, puncture, shred, or otherwise attempt to change the form of your battery.
- Don't let the mobile device or battery come in contact with water.* Water can get into the mobile device's circuits, leading to corrosion. If the mobile device and/or battery get wet, have them checked by your service provider or contact Motorola, even if they appear to be working properly.*
- Don't allow the battery to touch metal objects. If metal objects, such as jewelry, stay in prolonged contact with the battery contact points, the battery could become very hot.
- Don't place your mobile device or battery near a heat source.* High temperatures can cause the battery to swell, leak, or malfunction.

 Don't dry a wet or damp battery with an appliance or heat source, such as a hair dryer or microwave oven.

DOs

- Do avoid leaving your mobile device in your car in high temperatures.*
- Do avoid dropping the battery or mobile device.* Dropping these items, especially on a hard surface, can potentially cause damage.*
- Do contact your service provider or Motorola if your mobile device or battery has been damaged from dropping or high temperatures.
- * Note: Always make sure that the battery compartment is closed and secure to avoid direct exposure of the battery to any of these conditions. Important: Use Motorola Original products for quality assurance and safeguards. To aid consumers in identifying authentic Motorola batteries from non-original or counterfeit batteries (that may not have adequate safety protection), Motorola provides holograms on its batteries. Consumers should confirm that any battery they purchase has a "Motorola Original" hologram. Motorola recommends you always use Motorola-branded batteries and chargers. Motorola mobile devices are designed to work with

Motorola-branded batteries and chargers.
Motorola mobile devices are designed to work with
Motorola batteries. If you see a message on your
display such as Invalid Battery or
Unable to Charge, take the following steps:

- Remove the battery and inspect it to confirm that it has a "Motorola Original" hologram;
- If there is no hologram, the battery is not a Motorola battery;
- If there is a hologram, replace the battery and try charging it again;
- If the message remains, contact a Motorola authorized service center

Important: Motorola's warranty does not cover damage to the mobile device caused by non-Motorola batteries and/or chargers.

Warning: Use of a non-Motorola battery or charger may present a risk of fire, explosion, leakage, or other hazard.

Proper and safe battery disposal and recycling: Proper battery disposal is not only important for safety, it benefits the environment. Consumers may recycle their used batteries in many retail or service provider locations. Additional information on proper disposal and recycling may be found on the Web:

- www.motorola.com/recycling
- www.rbrc.org/call2recycle/ (in English only)

Disposal: Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling center or national recycling organizations for more information on how to dispose of batteries.

Warning: Never dispose of batteries in a fire because they may explode.

Battery Charging

Notes for charging your product's battery:

- During charging, keep your battery and charger near room temperature for efficient battery charging.
- New batteries are not fully charged.
- New batteries or batteries stored for a long time may take more time to charge.
- Motorola batteries and charging systems have circuitry that protects the battery from damage from overcharging.

Driving Precautions

Responsible and safe driving is your primary responsibility when behind the wheel of a vehicle. Using a mobile device or accessory for a call or other application while driving may cause distraction. Using a mobile device or accessory may be prohibited or restricted in certain areas, always obey the laws and regulations on the use of these products

While driving, NEVER:

- Type or read texts.
- Enter or review written data
- Surf the web
- · Input navigation information.
- · Perform any other functions that divert your attention from driving.

While driving, ALWAYS:

Keep your eyes on the road.

- Use a handsfree device if available or required by law in your area.
- Enter destination information into a navigation device before driving.
- Use voice activated features (such as voice dial) and speaking features (such as audible directions), if available.
- Obey all local laws and regulations for the use of mobile devices and accessories in the vehicle.
- End your call or other task if you cannot concentrate on driving.

Remember to follow the "Smart Practices While Driving" in this guide and at www.motorola.com/callsmart (in English only).

Seizures/Blackouts

Some people may be susceptible to epileptic seizures or blackouts when exposed to flashing lights, such as when playing videos or games. These may occur even if a person has never had a previous seizure or blackout.

If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult with your physician before playing videos or games or enabling a flashing-lights feature (if available) on your mobile device.

Discontinue use and consult a physician if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary movements, or disorientation. It is always a good idea to hold the

screen away from your eyes, leave the lights on in the room, take a 15-minute break every hour, and stop use if you are tired.

Caution About High Volume Usage

Warning: Exposure to loud noise from any source for extended periods of time may affect your hearing. The louder the volume sound level, the less time is required before your hearing could be affected. To protect your hearing:

- Limit the amount of time you use headsets or headphones at high volume.
- Avoid turning up the volume to block out noisy surroundings.
- Turn the volume down if you can't hear people speaking near you.

If you experience hearing discomfort, including the sensation of pressure or fullness in your ears, ringing in your ears, or muffled speech, you should stop listening to the device through your headset or headphones and have your hearing checked. For more information about hearing, see our Web site at

<u>direct.motorola.com/hellomoto/nss/AcousticSafety.asp</u> (in English only).

Repetitive Motion

When you repetitively perform actions such as pressing keys or entering finger-written characters, you may experience occasional discomfort in your

hands, arms, shoulders, neck, or other parts of your body. If you continue to have discomfort during or after such use, stop use and see a physician. [Nov0109]

Small Children

Keep your mobile device and its accessories away from small children. These products are not toys and may be hazardous to small children. For example:

- A choking hazard may exist for small, detachable parts.
- Improper use could result in loud sounds, possibly causing hearing injury.
- Improperly handled batteries could overheat and cause a burn.

Glass Parts

Some parts of your mobile device may be made of glass. This glass could break if the product is dropped on a hard surface or receives a substantial impact. If glass breaks, do not touch or attempt to remove. Stop using your mobile device until the glass is replaced by a qualified service center.

Operational Warnings

Obey all posted signs when using mobile devices in public areas.

Potentially Explosive Atmospheres Areas with potentially explosive atmospheres are often, but not always, posted and can include fueling areas, such as below decks on boats, fuel or chemical transfer or storage facilities, or areas where the air contains chemicals or particles, such as grain dust, or metal powders.

When you are in such an area, turn off your mobile device, and do not remove, install, or charge batteries. In such areas, sparks can occur and cause an explosion or fire.

Symbol Key

Your battery, charger, or mobile device may contain symbols, defined as follows:

Symbol Definition

 $Important\ safety\ information\ follows.$

Do not dispose of your battery or mobile device in a fire.

Your battery or mobile device may require recycling in accordance with local laws. Contact your local regulatory authorities for more information.

Do not dispose of your battery or mobile device with your household waste. See "Recycling" for more information.

For indoor use only.

Symbol Definition

Listening at full volume to music or voice through a headset may damage your hearing.

Radio Frequency (RF) Energy

Exposure to RF Energy

Your mobile device contains a transmitter and receiver. When it is ON, it receives and transmits RF energy. When you communicate with your mobile device, the system handling your call controls the power level at which your mobile device transmits. Your mobile device is designed to comply with local regulatory requirements in your country concerning exposure of human beings to RF energy.

RF Energy Operational Precautions For optimal mobile device performance, and to be sure that human exposure to RF energy does not exceed the guidelines set forth in the relevant standards, always follow these instructions and precautions:

- When placing or receiving a phone call, hold your mobile device just like you would a landline phone.
- If you wear the mobile device on your body, always place the mobile device in a Motorola-supplied or approved clip, holder, holster, case, or body harness. If you do not use a body-worn accessory supplied or approved by Motorola, keep the mobile

- device and its antenna at least 2.5 centimeters (1 inch) from your body when transmitting.
- Using accessories not supplied or approved by Motorola may cause your mobile device to exceed RF energy exposure guidelines. For a list of Motorola-supplied or approved accessories, visit our Web site at: www.motorola.com.

RF Energy Interference/Compatibility
Nearly every electronic device is subject to RF energy
interference from external sources if inadequately
shielded, designed, or otherwise configured for RF
energy compatibility. In some circumstances, your
mobile device may cause interference with other
devices

Follow Instructions to Avoid Interference Problems Turn off your mobile device in any location where posted notices instruct you to do so.

In an aircraft, turn off your mobile device whenever instructed to do so by airline staff. If your mobile device offers an airplane mode or similar feature, consult airline staff about using it in flight.

Implantable Medical Devices

If you have an implantable medical device, such as a pacemaker or defibrillator, consult your physician before using this mobile device.

Persons with implantable medical devices should observe the following precautions:

 ALWAYS keep the mobile device more than 20 centimeters (8 inches) from the implantable medical device when the mobile device is turned $\ensuremath{\mathsf{ON}}$

- DO NOT carry the mobile device in the breast pocket.
- Use the ear opposite the implantable medical device to minimize the potential for interference.
- Turn OFF the mobile device immediately if you have any reason to suspect that interference is taking place.

Read and follow the directions from the manufacturer of your implantable medical device. If you have any questions about using your mobile device with your implantable medical device, consult your healthcare provider.

Specific Absorption Rate (IEEE)

Your model wireless phone meets the governmental requirements for exposure to radio waves. Your mobile device is a radio transmitter and receiver. It is designed and manufactured to not exceed limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission (FCC) of the U.S. Government and by the Canadian regulatory authorities. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety

margin designed for the safety of all persons, regardless of age or health, and to account for any variations in measurements.

The exposure standard for mobile devices employs a unit of measurement known as the Specific Absorption Rate (SAR), The IEEE SAR limit set by the FCC and by the Canadian regulatory authorities is 1.6 watts per kilogram (W/kg), averaged over one gram of tissue. Tests for SAR are conducted using procedures accepted by the FCC and by Industry Canada with the mobile device transmitting at its highest certified power level in all tested frequencies. Although the SAR is determined at the highest certified power level, the actual SAR level of the mobile device while operating can be below the maximum value. This is because the mobile device is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station. the lower the power output.

Before a mobile device is available for sale to the public in the U.S. and Canada, it must be tested and certified to the FCC and Industry Canada that it does not exceed the limit established by each government for safe exposure. The tests are performed in positions and locations (e.g., at the ear and worn on the body) submitted to the FCC and available for review by Industry Canada. The highest SAR value for this mobile device when tested for use at the ear is 1.47 W/kg, and when worn on the body, as described in this guide, is 1.25 W/kg. The SAR value for this mobile device in its data transmission mode

(body-worn use) is 1.35 W/kg. Body-worn measurements can differ, depending upon available accessories and regulatory requirements. The SAR information includes the Motorola testing protocol, assessment procedure, and measurement uncertainty range for this product.

While there may be differences between the SAR levels of various mobile devices and at various positions, they meet the governmental requirements for safe exposure. Please note that improvements to this product model could cause differences in the SAR value for later products: in all cases, products are designed to be within the guidelines.

Additional information on SAR can be found on the Cellular Telecommunications & Internet Association (CTIA) Web site:

http://www.phonefacts.net

or the Canadian Wireless Telecommunications

Association (CWTA) Web site:

http://www.cwta.ca

Information from the World Health Organization

"A large number of studies have been performed over the last two decades to assess whether mobile phones pose a potential health risk. To date, no adverse health effects have been established for mobile phone use."

Source: WHO Fact Sheet 193

Further information: http://www.who.int/emf

European Union Directives Conformance Statement

C €0168**①**

[Only Indoor Use Allowed In France for Bluetooth and/or Wi-Fil

Hereby, Motorola declares that this product is in compliance with:

- The essential requirements and other relevant provisions of Directive 1999/5/EC
- All other relevant EU Directives

Product Approval Number

The above gives an example of a typical Product Approval Number.

You can view your product's Declaration of Conformity (DoC) to Directive 1999/5/EC (to R&TTE Directive) at www.motorola.com/rtte. To find your DoC, enter the Product Approval Number from your product's label in the "Search" bar on the Web site.

FCC Notice to Users

The following statement applies to all products that have received FCC approval. Applicable

products bear the FCC logo, and/or an FCC ID in the format FCC ID:xxxxxxx on the product label.

Motorola has not approved any changes or modifications to this device by the user. Any changes or modifications could void the user's authority to operate the equipment. See 47 CFR Sec. 15.21. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: This device may not cause harmful interference. and (2) this device must accept any interference received, including interference that may cause undesired operation. See 47 CFR Sec. 15.19(3). This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no quarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.

- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Industry Canada Notice to Users

Operation is subject to the following two conditions: (1) This device may not cause interference and (2) This device must accept any interference, including interference that may cause undesired operation of the device. See RSS-GEN 7.1.5. This Class B digital apparatus complies with Canadian ICES-003.

GPS & AGPS

Your mobile device can use Global Positionina System (GPS) signals for location-based applications. GPS uses satellites controlled by the U.S. government that are subject to changes implemented in accordance with the Department of Defense policy and the Federal Radio Navigation Plan. These changes may affect the performance of location technology on your mobile device. Your mobile device can also use Assisted Global Positioning System (AGPS), which obtains information from the cellular network to improve GPS performance. AGPS uses your wireless service provider's network and therefore airtime, data charges, and/or additional charges may apply in accordance with your service plan. Contact your wireless service provider for details.

Your Location

Location-based information includes information that can be used to determine the approximate location of a mobile device. Mobile devices which are connected to a wireless network transmit location-based information. Devices enabled with GPS or AGPS technology also transmit location-based information. Additionally, if you use applications that require location-based information (e.g. driving directions), such applications transmit location-based information. This location-based information may be shared with third parties, including your wireless service provider, applications providers, Motorola, and other third parties providing services.

Emergency Calls

When you make an emergency call, the cellular network may activate the AGPS technology in your mobile device to tell the emergency responders your approximate location.

AGPS has limitations and **might not work in your area**. Therefore:

- Always tell the emergency responder your location to the best of your ability; and
- Remain on the phone for as long as the emergency responder instructs you.

Performance Tips

 Go outside and away from underground locations, covered vehicles, structures with metal or concrete roofs, tall buildings, and foliage. Indoor

- performance might improve if you move closer to windows, but some window sun shielding films can block satellite signals.
- Move away from radios, entertainment equipment, and other electronic devices.

Navigation

When using navigation features, note that mapping information, directions and other navigational data may contain inaccurate or incomplete data. In some countries, complete information may not be available. Therefore, you should visually confirm that the navigational instructions are consistent with what you see. All drivers should pay attention to road conditions, closures, traffic, and all other factors that may impact driving. Always obey posted road signs.

Smart Practices While Driving

Check the laws and regulations on the use of mobile devices and their accessories in the areas where you drive. Always obey them. The use of these devices may be prohibited or restricted in certain areas—for example, handsfree use only may be required. Go to www.motorola.com/callsmart (in English only) for more information.

Your mobile device lets you communicate by voice and data—almost anywhere, anytime, wherever wireless service is available and safe conditions allow. When driving a car, driving is your first responsibility. If you choose to use your mobile device while driving, remember the following tips:

- Get to know your Motorola mobile device and its features such as speed dial, redial and voice dial. If available, these features help you to place your call without taking your attention off the road.
- When available, use a handsfree device. If possible, add an additional layer of convenience to your mobile device with one of the many Motorola Original handsfree accessories available today.
- Position your mobile device within easy reach.
 Be able to access your mobile device without removing your eyes from the road. If you receive an incoming call at an inconvenient time, if possible, let your voicemail answer it for you.
- Let the person you are speaking with know you are driving; if necessary, suspend the call in heavy traffic or hazardous weather conditions. Rain, sleet, snow, ice, and even heavy traffic can be hazardous
- Do not take notes or look up phone numbers while driving. Jotting down a "to do" list or going through your address book takes attention away from your primary responsibility—driving safely.
- Dial sensibly and assess the traffic; if possible, place calls when your car is not

- moving or before pulling into traffic. If you must make a call while moving, dial only a few numbers, check the road and your mirrors, then continue
- Do not engage in stressful or emotional conversations that may be distracting. Make people you are talking with aware you are driving and suspend conversations that can divert your attention away from the road.
- Use your mobile device to call for help. Dial 911 or other local emergency number in the case of fire, traffic accident, or medical emergencies (wherever wireless phone service is available).
- Use your mobile device to help others in emergencies. If you see an auto accident, crime in progress, or other serious emergency where lives are in danger, call 911 or other local emergency number (wherever wireless phone service is available), as you would want others to do for you.
- Call roadside assistance or a special non-emergency wireless assistance number when necessary. If you see a broken-down vehicle posing no serious hazard, a broken traffic signal, a minor traffic accident where no one appears injured, or a vehicle you know to be stolen, call roadside assistance or other special

non-emergency wireless number (wherever wireless phone service is available).

Privacy & Data Security

Motorola understands that privacy and data security are important to everyone. Because some features of your mobile device may affect your privacy or data security, please follow these recommendations to enhance protection of your information:

- Monitor access—Keep your mobile device with you and do not leave it where others may have unmonitored access. Lock your device's keypad where this feature is available.
- Keep software up to date—If Motorola or a software/application vendor releases a patch or software fix for your mobile device that updates the device's security, install it as soon as possible.
- Secure Personal Information—Your mobile device can store personal information in various locations including your SIM card, memory card, and phone memory. Be sure to remove or clear all personal information before you recycle, return, or give away your device. You can also backup your personal data to transfer to a new device.

 Note: For information on how to backup or wine.

Note: For information on how to backup or wipe data from your mobile device, go to www.motorola.com/support

 Online accounts—Some mobile devices provide a Motorola online account (such as MOTOBLUR). Go

- to your account for information on how to manage the account, and how to use security features such as remote wipe and device location (where available).
- Applications—Install third party applications from trusted sources only. Applications can have access to private information such as call data, location details and network resources.
- Location-based information—Location-based information includes information that can be used to determine the approximate location of a mobile device. Mobile phones which are connected to a wireless network transmit location-based information. Devices enabled with GPS or AGPS technology also transmit location-based information. Additionally, if you use applications that require location-based information (e.g. driving directions), such applications transmit location-based information may be shared with third parties, including your wireless service provider, applications providers, Motorola, and other third parties providing services.
- Other information your device may transmit—Your device may also transmit testing and other diagnostic (including location-based) information, and other non-personal information to Motorola or other third-party servers. This

information is used to help improve products and services offered by Motorola.

If you have further questions regarding how the use of your mobile device may impact your privacy or data security, please contact Motorola at privacy@motorola.com, or contact your service provider.

Use & Care

To care for your Motorola mobile device, please observe the following:

liquids

Don't expose your mobile device to water, rain, extreme humidity, sweat, or other liquids. If it does get wet, don't try to accelerate drying with the use of an oven or dryer, as this may damage the mobile device.

extreme heat or cold

Don't store or use your mobile device in temperatures below -10°C (14°F) or above 60°C (140°F). Don't recharge your mobile device in temperatures below 0°C (32°F) or above 45°C (113°F)

microwaves

Don't try to dry your mobile device in a microwave oven.

dust and dirt

Don't expose your mobile device to dust, dirt, sand, food, or other inappropriate materials.

cleaning solutions

To clean your mobile device, use only a dry soft cloth. Don't use alcohol or other cleaning solutions.

shock and vibration

Don't drop your mobile device.

protection

To help protect your mobile device, always make sure that the battery compartment and any connector covers are closed and secure.

Recycling

Mobile Devices & Accessories

Please do not dispose of mobile devices or electrical accessories (such as chargers, headsets, or batteries) with your household waste, or in a fire. These items should be disposed of in accordance with the national collection and recycling schemes operated by your local or regional authority. Alternatively, you may return unwanted mobile devices and electrical accessories to any Motorola Approved Service Center in your region. Details of Motorola approved national recycling schemes, and further information on Motorola recycling activities can be found at: www.motorola.com/recycling

Packaging & Product Guides

Product packaging and product guides should only be disposed of in accordance with national collection and recycling requirements. Please contact your regional authorities for more details.

California Perchlorate Label

Some mobile phones use an internal, permanent backup battery on the printed circuit board that may contain very small amounts of perchlorate. In such cases, California law requires the following label: Perchlorate Material – special handling may apply when the battery is recycled or disposed of. See www.dtsc.ca.gov/hazardouswaste/perchlorate There is no special handling required by consumers.

Hearing Aid Compatibility with Mobile Phones

Some Motorola phones are measured for compatibility with hearing aids. If the box for your particular model has "Rated for Hearing Aids" printed on it, the following explanation applies. When some mobile phones are used near some hearing devices (hearing aids and cochlear implants), users may detect a buzzing, humming, or whining noise. Some hearing devices are more immune than others to this interference noise, and phones also vary in the amount of interference they generate. The wireless telephone industry has developed ratings for some of their mobile phones, to assist hearing device users in finding phones that may be

compatible with their hearing devices. Not all phones have been rated. Phones that are rated have the rating on their box or a label on the box. To maintain the published Hearing Aid Compatibility (HAC) rating for this mobile phone, use only the original equipment battery model.

The ratings are not guarantees. Results will vary depending on the user's hearing device and hearing loss. If your hearing device happens to be vulnerable to interference, you may not be able to use a rated phone successfully. Trying out the phone with your hearing device is the best way to evaluate it for your personal needs.

M-Ratings: Phones rated M3 or M4 meet FCC requirements and are likely to generate less interference to hearing devices than phones that are not labeled. M4 is the better/higher of the two ratings.

T-Ratings: Phones rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device's telecoil ("T Switch" or "Telephone Switch") than unrated phones. T4 is the better/higher of the two ratings. (Note that not all hearing devices have telecoils in them.)

Hearing devices may also be measured for immunity to this type of interference. Your hearing device manufacturer or hearing health professional may help you find results for your hearing device. The more immune your hearing aid is, the less likely you are to experience interference noise from mobile phones.

Software Copyright Notice

Motorola products may include copyrighted Motorola and third-party software stored in semiconductor memories or other media. Laws in the United States. and other countries preserve for Motorola and third-party software providers certain exclusive rights for copyrighted software, such as the exclusive rights to distribute or reproduce the copyrighted software. Accordingly, any copyrighted software contained in Motorola products may not be modified, reverse-engineered, distributed, or reproduced in any manner to the extent allowed by law. Furthermore. the purchase of Motorola products shall not be deemed to grant either directly or by implication, estoppel, or otherwise, any license under the copyrights, patents, or patent applications of Motorola or any third-party software provider, except for the normal, non-exclusive, royalty-free license to use that arises by operation of law in the sale of a product.

Content Copyright

The unauthorized copying of copyrighted materials is contrary to the provisions of the Copyright Laws of the United States and other countries. This device is intended solely for copying non-copyrighted materials, materials in which you own the copyright, or materials which you are authorized or legally permitted to copy. If you are uncertain about your right to copy any material, please contact your legal advisor.

Open Source Software Information

For instructions on how to obtain a copy of any source code being made publicly available by Motorola related to software used in this Motorola mobile device, you may send your request in writing to the address below. Please make sure that the request includes the model number and the software version number.

MOTOROLA MOBILITY, INC. OSS Management 600 North US Hwy 45 Libertyville, IL 60048 IISA

The Motorola website <u>opensource.motorola.com</u> also contains information regarding Motorola's use of open source.

Motorola has created the <u>opensource.motorola.com</u> website to serve as a portal for interaction with the software community-at-large.

To view additional information regarding licenses, acknowledgments and required copyright notices for open source packages used in this Motorola mobile device, please press Menu Key > **Settings**

> About phone > Legal information

> Open source licenses. In addition, this Motorola device may include self-contained applications that present supplemental notices for open source packages used in those applications.

Export Law Assurances

This product is controlled under the export regulations of the United States of America and Canada. The Governments of the United States of America and Canada may restrict the exportation or re-exportation of this product to certain destinations. For further information contact the U.S. Department of Commerce or the Canadian Department of Foreign Affairs and International Trade.

Product Registration

Online Product Registration: www.motorola.com/us/productregistration
Product registration is an important step toward enjoying your new Motorola product. Registering permits us to contact you for product or software updates and allows you to subscribe to updates on new products or special promotions. Registration is not required for warranty coverage.

Please retain your original dated sales receipt for your records. For warranty service of your Motorola Personal Communications Product you will need to provide a copy of your dated sales receipt to confirm warranty status.

Thank you for choosing a Motorola product.

Service & Repairs

If you have questions or need assistance, we're here to help.

Go to www.motorola.com/support (Canada), where you can select from a number of customer care options.

You can also contact the Motorola Customer Support Center at 1-800-734-5870 (United States), 1-888-390-6456 (TTY/TDD United States for hearing impaired), or 1-800-461-4575 (Canada).

Motorola Limited Warranty for the United States and Canada

What Does this Warranty Cover?
Subject to the exclusions contained below, Motorola Mobility, Inc. warrants its mobile telephones ("Products"), Motorola-branded or certified accessories sold for use with these Products ("Accessories"), and Motorola software contained on CD-ROMs or other tangible media and sold for use with these Products ("Software") to be free from defects in materials and workmanship under normal consumer usage for the period(s) outlined below. This limited warranty is a consumer's exclusive remedy, and applies as follows to new Motorola Products, Accessories, and Software purchased by consumers in the United States or Canada, which are accompanied by this written warranty:

Products and Accessories

Products and Accessories				
Products Covered	Length of Coverage			
Products and Accessories as defined above, unless otherwise provided for below.	One (1) year from the date of purchase by the first consumer purchaser of the product unless otherwise provided for below.			
Decorative Accessories and Cases. Decorative covers, bezels, PhoneWrap™ covers and cases.	Limited lifetime warranty for the lifetime of ownership by the first consumer purchaser of the product.			
Monaural Headsets. Ear buds and boom headsets that transmit mono sound through a wired connection.	Limited lifetime warranty for the lifetime of ownership by the first consumer purchaser of the product.			
Products and Accessories that are Repaired or Replaced.	The balance of the original warranty or for ninety (90) days from the date returned to the consumer, whichever is longer.			

Exclusions (Products and Accessories)

Normal Wear and Tear. Periodic maintenance, repair and replacement of parts due to normal wear and tear are excluded from coverage.

Batteries. Only batteries whose fully charged capacity falls below 80% of their rated capacity and batteries that leak are covered by this limited warranty.

Abuse & Misuse. Defects or damage that result from: (a) improper operation, storage, misuse or abuse, accident or neglect, such as physical damage (cracks, scratches, etc.) to the surface of the product resulting from misuse; (b) contact with liquid, water, rain, extreme humidity or heavy perspiration, sand, dirt or the like, extreme heat, or food; (c) use of the Products or Accessories for commercial purposes or subjecting the Product or Accessory to abnormal usage or conditions; or (d) other acts which are not the fault of Motorola, are excluded from coverage.

Use of Non-Motorola Products and Accessories. Defects or damage that result from the use of non-Motorola branded or certified Products, Accessories, Software or other peripheral equipment are excluded from coverage.

Unauthorized Service or Modification. Defects or damages resulting from service, testing, adjustment, installation, maintenance, alteration, or modification in any way by someone other than Motorola, or its authorized service centers, are excluded from coverage.

Altered Products. Products or Accessories with (a) serial numbers or date tags that have been

removed, altered or obliterated; (b) broken seals or that show evidence of tampering; (c) mismatched board serial numbers; or (d) nonconforming or non-Motorola housings, or parts, are excluded from coverage.

Communication Services. Defects, damages, or the failure of Products, Accessories or Software due to any communication service or signal you may subscribe to or use with the Products Accessories or Software is excluded from coverage.

Software

Products Covered	Length of Coverage
Software. Applies only to physical defects in the media that embodies the copy of the software (e.g. CD-ROM, or floppy disk).	Ninety (90) days from the date of purchase.

Exclusions (Software)

Software Embodied in Physical Media. No warranty is made that the software will meet your requirements or will work in combination with any hardware or software applications provided by third parties, that the operation of the software products will be uninterrupted or error free, or that all defects in the software products will be corrected.

Software NOT Embodied in Physical Media. Software that is not embodied in physical media (e.g. software that is downloaded from the Internet), is provided "as is" and without warranty.

Who is Covered?

This warranty extends only to the first consumer purchaser, and is not transferable.

What Will Motorola Do?

Motorola, at its option, will at no charge repair, replace or refund the purchase price of any Products, Accessories or Software that does not conform to this warranty. We may use functionally equivalent reconditioned/refurbished/pre-owned or new Products, Accessories or parts. No data, software or applications added to your Product, Accessory or Software, including but not limited to personal contacts, games and ringer tones, will be reinstalled. To avoid losing such data, software, and applications, please create a back up prior to requesting service.

How to Obtain Warranty Service or Other Information

USA	1-800-734-5870
Canada	1-800-461-4575
TTY	1-888-390-6456

You will receive instructions on how to ship the Products, Accessories or Software, at your expense, to a Motorola Authorized Repair Center. To obtain service, you must include: (a) a copy of your receipt, bill of sale or other comparable proof of purchase;

(b) a written description of the problem; (c) the name of your service provider, if applicable; (d) the name and location of the installation facility (if applicable) and, most importantly; (e) your address and telephone number.

What Other Limitations are There? ANY IMPLIED WARRANTIES INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, SHALL BE LIMITED TO THE DURATION OF THIS LIMITED WARRANTY, OTHERWISE THE REPAIR. REPLACEMENT, OR REFUND AS PROVIDED UNDER THIS EXPRESS LIMITED WARRANTY IS THE EXCLUSIVE REMEDY OF THE CONSUMER. AND IS PROVIDED IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED. IN NO EVENT SHALL MOTOROLA BE LIABLE. WHETHER IN CONTRACT OR TORT (INCLUDING NEGLIGENCE) FOR DAMAGES IN EXCESS OF THE PURCHASE PRICE OF THE PRODUCT, ACCESSORY OR SOFTWARE, OR FOR ANY INDIRECT, INCIDENTAL. SPECIAL OR CONSEQUENTIAL DAMAGES OF ANY KIND, OR LOSS OF REVENUE OR PROFITS, LOSS OF BUSINESS LOSS OF INFORMATION OR DATA SOFTWARE OR APPLICATIONS OR OTHER FINANCIAL LOSS ARISING OUT OF OR IN CONNECTION WITH THE ABILITY OR INABILITY TO USE THE PRODUCTS. ACCESSORIES OR SOFTWARE TO THE FULL EXTENT THESE DAMAGES MAY BE DISCLAIMED BY LAW Some states and jurisdictions do not allow the limitation or exclusion of incidental or consequential damages, or limitation on the

length of an implied warranty, so the above limitations or exclusions may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state or from one jurisdiction to another.
