Subject: FCC Part 25 SCS Attestation

**FCC ID: IHDT56AN6**

To whom it may concern,

This application for a permissive change is to add support for the Supplemental Coverage from Space (SCS) under Part 25 of FCC's rules. These SCS capabilities are added through software updates only. There are no hardware changes being made to the device. The RF emissions characteristics remain the same as described in the original equipment filing.

The RF exposure is not impacted by this change and the original filing documentation remains representative for this device.

This application requests that the grants of authorization be revised to add SCS capabilities for the air interfaces and operating bands identified in the table below.

| Band  | Frequency |           | Device Supported Band               |
