Battery Use & Safety

he following hattery use and safety information applies to all Motorola mobile devices. If your mobile device uses a non-removable main battery (as stated in your product information), details related to handling and replacing your battery

• Enter or review written data. should be disregarded—the battery should only be replaced by a Motorolaapproved service facility, and any attempt to remove or replace your battery may

Important: Handle and store batteries properly to avoid injury or damage. While driving, ALWAYS: Most battery issues arise from improper handling of batteries, and particularly Keep your eyes on the roa rom the continued use of damaged batteries.

 Don't disassemble, crush, puncture, shred, or otherwise attempt to change the form of your battery. Don't let the mobile device or battery come in contact with liquids.*

Liquids can get into the mobile device's circuits, leading to corrosion. Don't allow the battery to touch metal objects, If metal objects, such as iewelry stay in prolonged contact with the battery contact points, the

battery could become very hot. Don't place your mobile device or battery near a heat source.* High emperatures can cause the battery to swell, leak, or malfunction.

Don't dry a wet or damp battery with an appliance or heat source, such as a hair dryer or microwave oven

Do avoid leaving your mobile device in your car in high temperatures. Do avoid dropping the mobile device or battery.* Dropping these items. especially on a hard surface, can potentially cause damage.

Do contact your service provider or Motorola if your mobile device or battery has been damaged by dropping, liquids or high temperatures. * Note: Always make sure that the battery compartment and any connector covers are closed and secure to avoid direct exposure of the battery to any of these conditions, even if your product information states that your **mobile device** can resist damage from these conditions

Important: Motorola recommends you always use Motorola-branded batteries and chargers for quality assurance and safeguards. Motorola's warranty does not cover damage to the mobile device caused by non-Motorola non-original or counterfeit batteries (that may not have adequate safety protection) Motorola provides holograms on its batteries. You should confirm that any battery you purchase has a "Motorola Original" hologram. f you see a message on your display such as Invalid Battery or Unable to Charge, take ne following steps

Remove the battery and inspect it to confirm that it has a "Motorola Original" hologram If there is no hologram, the battery is not a Motorola battery;

If there is a hologram, replace the battery and try charging it again; If the message remains, contact a Motorola authorized service cente Warning: Use of a non-Motorola battery or charger may present a risk of fire

explosion, leakage, or other hazard. Proper and safe battery disposal and recycling: Proper battery disposal is not only important for safety, it benefits the environment. You can recycle your used batteries in many retail or service provider locations. Additional information on

properdisposalandrecyclingcanbefoundatwww.motorola.com/recycling **Disposal:** Promptly dispose of used batteries in accordance with local regulations. Contact your local recycling center or national recycling organizations for more information on how to dispose of batteries. Warning: Never dispose of batteries in a fire because they may

Battery Charging

Notes for charging your product's battery: During charging, keep your battery and charger near room temperature for

efficient battery charging New batteries are not fully charged. New batteries or batteries stored for a long time may take more time to

Motorola batteries and charging systems have circuitry that protects the battery from damage from overcharging.

Third Party Accessories

Use of third party accessories, including but not limited to batteries, chargers neadsets, covers, cases, screen protectors and memory cards, may impact you mobile device's performance. In some circumstances, third party accessories can be dangerous and may void your mobile device's warranty. For a list of Motorola accessories, visit www.motorola.com/products

application while driving may cause distraction. Using a mobile device or

Hearing Aid Compatibility with Mobile

Please do not dispose of mobile devices or electrical accessories (such

Some Motorola phones are measured for compatibility with hearing aids. If the box for your particular model has "Rated for Hearing Aids" printed on it, the following explanation applies. When some mobile phones are used near some hearing devices (hearing aids

and cochlear implants), users may detect a buzzing, humming, or whining noise. Some hearing devices are more immune than others to this interference noise, and phones also vary in the amount of interference they generate. The wireless telephone industry has developed ratings for some of their mobile

phones, to assist hearing device users in finding phones that may be compatible with their hearing devices. Not all phones have been rated. Phones that are rated have the rating on their box or a label on the box. To maintain the published Hearing Aid Compatibility (HAC) rating for this mobile phone, use only the original equipment battery model is phone has been tested and rated for use with hearing aids for some of the

wireless technologies that it uses. However, there may be some newer wireless technologies used in this phone that have not been tested vet for use with nearing aids. It is important to try the different features of this phone thoroughly and in different locations, using your hearing aid or cochlear implant, to determine if you hear any interfering noise. Contact your service provider or Motorola for information on hearing aid compatibility. If you have guestions about return or exchange policies, contact your service provider or phone retailer. The ratings are not guarantees. Results will vary depending on the user's hearing device and hearing loss. If your hearing device happens to be vulnerable to

interference, you may not be able to use a rated phone successfully. Trying out

the phone with your hearing device is the best way to evaluate it for your personal Products and Accessories

M-Ratings: Phones rated M3 or M4 meet FCC requirements and are likely to generate less interference to hearing devices than phones that are not labeled. 4 is the better/higher of the two ratings T-Ratings: Phones rated T3 or T4 meet FCC requirements and are likely to be more usable with a hearing device's telecoil ("T Switch" or "Telephone Switch"

than unrated phones. T4 is the better/higher of the two ratings. (Note that not all hearing devices have telecoils in them. Cases. Decorative covers. of ownership by the first consumer Hearing devices may also be measured for immunity to this type of interference. pezels, PhoneWrap™ covers purchaser of the product. Your hearing device manufacturer or hearing health professional may help you find

results for your hearing device. The more immune your hearing aid is, the less likely you are to experience interference noise from mobile phones Software Copyright Notice
