

# Exhibit 1. Identification Label -- Pursuant to 47 CFR 2.925 and 2.1033(c)(11); and RSP100, Section 5 and

## 1.1 Electronic Labeling

This device will employ electronic labeling for all required FCC and Industry Canada regulatory marks, consistent with the KDB Publication KDB784748 D02 and Notice 2014-DRS1003.

## 1.2 Accessing Electronic Label Information

End users can access electronic labeling of regulatory information using the procedure described below. These instructions are also presented in the User Manual provided with this device (see Exhibit 8):

1. Enter the Settings Menu of the device.
2. Scroll to the bottom of the available options, and select the About Phone option.
3. Select the Regulatory Information option, and scroll as needed to access the desired information.
4. When finished, press the Home Key to return to the device's home screen

## 1.3 Electronic Labeling Regulatory Requirements Checklist

The FCC and Industry Canada have established implementation criteria for the use of Electronic Labeling. This device's implementation is wholly consistent with these requirements, per the checklist below:

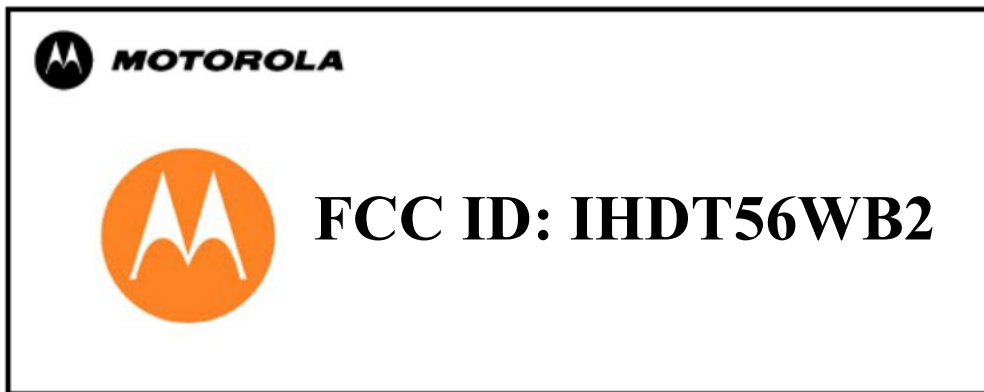

Required FCC/IC regulatory markings included?	Yes
Information readily accessible to users via menu?	Yes
Obtainable from the menu with three or fewer steps?	Yes
Obtainable without any special accessories, access codes, or SIM card having to be in place?	Yes
User Guide provides instruction on accessing this information (See Exhibit 08)?	Yes
If not in the User Guide, are these instructions provided on a product-related web site, and are instructions for accessing this site provided in the device packaging?	Yes
Devices have physical labels at point of marketing/sale (or in the alternative, on the packaging), and at time of importation?	Yes
Electronic labeling information is programmed into the device by Motorola at the time of manufacture.	Yes

Electronic labeling information not modifiable by any third party. Yes

All the applicable regulatory information required on the packaging or user instructions is provided according to the rules. Yes

## 1.4 Markings (Text)

The FCC label shown is representative of the label that will appear on the radio when in production.

The above label representation is applicable to different versions/variants of the device that is the subject of this application. Depending upon the device version, or market into which it ships, the Model Number may vary. All such variants will be electrically identical, consistent with the requirements of FCC Class I Permissive Change rules and guidance (47 CFR 2.1043 and KDB 178919 D01). Please note that this labeling scheme complies with the requirement of FCC Rule 47 CFR 2.925(d) that the label be permanently affixed to the product, and be readily visible to the purchaser at the time of purchase.
