FCC E-Label Information

A. Information to be displayed

1. The information that will be displayed on the e-label and information that will remain in the user manual is shown below:

Information	on E-label	In Manual
FCC ID number	Yes	No
FCC logo	No	No
15.19 statement ("This device complies with part 15 of the FCC Rules.	No	Yes
Operation is subject to the following two conditions: (1) This device may not		
cause harmful interference, and (2) this device must accept any interference		
received, including interference that may cause undesired operation.")		

Images of the e-label screen are provided below:

Europe

United States of America

FCC ID: IHDT56XC3

B. Access to the required information on the e-label

	Access to the required information on the e-label Users must be able to access the regulatory The actual steps are:				
1.	information without requiring special access	To access the e-label information, in the			
	codes or permissions, and in all cases the	device, Choose: Settings > System>			
	information must be accessible in no more than				
	three steps from a product's main or home	Regulatory information			
	menu.				
		Access to regulatory information is provided			
		without special codes, accessories, or permissions			
		beyond the normal security protection to unlock			
		the screen, sign-in page, or overall product access.			
2.	Instructions must be provided with the product	The information to the user is provided in the			
	at the time of purchase, in the user manual,	user manual.			
	operating instructions, packaging material, quick				
	guide pamphlet, etc. Alternatively, a product-				
	related website is permitted, if a reference (URL)				
	to obtain the website information is provided at				
	the time of purchase in the user manual,				
	operating instructions, packaging material, quick				
	guide pamphlet, etc.				
3.	Products must not require special accessories or	The devices do not require special code, accessories			
	supplemental plug-ins (e.g., the installation of a	or supplemental plug-ins to access the information.			
	SIM/USIM card) to access the information.				
	Access to regulatory information must be				
	provided without special codes, accessories, or				
	permissions beyond the normal security				
	protection to unlock the screen, sign-in page, or				
	overall product access.				
4.	The FCC ID, warning statements, or other	Yes, it is clearly legible without the aid of			
	information must be displayed electronically in a	magnification.			
	manner that is clearly legible without the aid of				
<u> </u>	magnification.	V 11 11 11 11 11 11 11 11 11 11 11 11 11			
5.	Both regulatory information and dedicated	Yes, it is secured and the user cannot modify it.			
	exclusive application(s) or script(s) must be				
	secured and implemented in a factory-set-				
	unalterable format. The regulatory information				
	must be capable of being retrieved and				
	displayed locally, and under the control of the				
	end user in possession of the product. The				
	method must be secure, such that the				
	application or script ensures that the regulatory				
	information correctly displayed.				

C. Labeling for Importation and Purchasing

1. When e-labeling is used, a physical temporary	The FCC ID is present on the product packaging.
label is also required on the product, or a label	
on the packaging, at the time of importation,	
marketing, and sales. The physical label can be a	
summary version of the required regulatory	
information, such that the product can be	

identified as complying with the FCC's
equipment authorization requirements. The
information may simply be the FCC ID for
products subject to certification.

Products imported that are already
packaged for sale and have a physical
temporary label will satisfy this
requirement. However, for products
imported in bulk and not packaged
individually, it is acceptable to use a

temporary removable adhesive label on the product, or temporary or permanent labels on the shipping packaging or protective bags. Any removable adhesive label shall be of a type intended to survive normal shipping and handling.
