

Safety, regulatory, & legal

Where is my legal, safety and regulatory information? In order to provide you with better access to this important information, we've made the materials accessible from the phone's settings menu and on the web. Please review these materials prior to using your device. To access the materials from a connected phone, go to **Settings**

> **System > Legal information**, and select a topic. To access the materials on the web, visit www.motorola.com/device-legal.

Regulatory information (e-label). Your mobile device may use an electronic label (e-label) that provides some regulatory information about the device. To view the regulatory information (such as FCC ID) for this device, on the phone, go to **Settings > System > Regulatory information**, or visit www.motorola.com/device-legal.

Battery charging. Charge your mobile device using a compatible Motorola charger, another brand class 2 Limited Power Source USB charger that complies with USB 1.1, 2.0, 3.0, or greater, and complies with EN301489-34, EN60950-1 or equivalent, or a high-power USB port on a PC. Chargers that do not comply with these standards may be unsafe and may cause slow charging, product damage, or reduced device performance.

- Your mobile device will not charge if the temperature is too high or low.
- Only use Motorola-approved batteries, which contain safety circuitry and are designed to give the best performance in your mobile device.
- Don't use a damaged charger or charger cable to charge your device.
- Don't use tools, sharp objects, or excessive force to clean the USB port, as this may damage your mobile device.

Distractions. Using your mobile device in some circumstances could distract you and may cause a dangerous situation. Be aware of your surroundings and environmental hazards when using your mobile device.

Driving precautions. Responsible and safe driving is your primary responsibility when driving a vehicle. Always obey local laws and regulations.

Seizures, blackouts, eyestrain & discomfort. Prolonged use of any device may cause discomfort in hands, fingers, arms, neck, and other parts of your body, and may cause eyestrain and headaches. It is good practice to use your device in a safe area with comfortable ambient lighting, and take frequent breaks if you feel discomfort. Seek medical advice if symptoms persist.

In rare cases, flashing patterns or lights, for example in video games or movies, may cause seizures or blackouts. If you suffer any seizures or blackouts, or have a history of seizures, stop using your device and seek medical advice.

Medical devices. If you use an implantable pacemaker or defibrillator, or other medical device, consult your healthcare provider and the device manufacturer's directions before using this mobile device.

If you use a pacemaker or defibrillator, the FCC recommends that you observe the following precautions:

- **ALWAYS** keep the mobile device more than 20 centimeters (8 inches) from the pacemaker or defibrillator.
- Use the ear opposite the pacemaker or defibrillator to minimize the potential for interference.
- Turn **OFF** the mobile device immediately if you have any reason to suspect that interference is taking place.

Important: Some products contain magnets. Always keep products with magnets more than 20 cm. (8 in.) from medical devices, such as pacemakers, internal cardio defibrillators or other devices that can be affected by a magnetic field. Also, keep away from credit cards, ID cards and other media that use magnetically encoded information.

Children and animals. Keep your mobile device and its accessories away from small children and animals. These products are not toys and maybe hazardous to small children and animals. For example, a choking hazard may exist for small, detachable parts. Keep plastic bags away from babies and children to avoid danger of suffocation and choking. **Supervise access.** If children use your mobile device and accessories, monitor their access for their safety, and to help prevent loss of data or unexpected charges for data or app purchases.

Glass parts. Some parts of your mobile device, like your screen, could be made of glass. If the glass breaks, chips, or cracks, do not touch or attempt to remove it. Stop using your mobile device until it can be repaired by a qualified service center.

Use & care. To care for your Motorola mobile device, please observe the following:

- **Liquids.** Don't expose your mobile device to water, rain, extreme humidity, sweat, or other liquids.
- **Drying.** Don't try to dry your mobile device using a microwave oven, conventional oven, or dryer.
- **Extreme heat or cold.** Don't store, charge, or use your mobile device in extreme heat or cold.
- **Dust and dirt.** Don't expose your mobile device to dust, dirt, sand, food, or similar materials.
- **Cleaning.** To clean your mobile device, use only a dry soft cloth. Don't use chemicals or compressed air.
- **Shock and vibration.** Don't drop your mobile device or expose it to strong vibration.
- **Protection.** To help protect your mobile device, always make sure that any available connectors, compartments and removable covers are closed and secure, and avoid carrying it with hard objects such as keys or coins.

Operational warnings. Obey all posted signs when using mobile devices in public areas.

- **Potentially explosive areas:** Potentially explosive areas are often, but not always, posted and can include blasting areas, fueling stations, fueling areas (such as below decks on boats), fuel or chemical transfer or storage facilities, or areas where the air contains chemicals or particles, such as grain dust, or metal powders.
Turn off your mobile device before entering such an area, and do not charge batteries. In such areas, sparks can occur and cause an explosion or fire.
- **Symbol key:** Your charger, mobile device, battery (if user-removable), device display, user's guide, or packaging may contain symbols, defined as follows:

Disposal & recycling: [pt-BR]

Battery recycling. Do not dispose of batteries in a fire; they may explode. Proper battery disposal is important to your safety and also to the environment and can be done at various locations, such as stores and service providers, among others.

Recycling mobile devices and accessories. Do not dispose

of mobile devices or electrical accessories (such as chargers, headphones or batteries) in household waste or by burning.

The appropriate solution is to return mobile devices, batteries or accessories at any authorized Motorola dealer in your region or dispose of them in ECOMOTO program bins, which meet PNRS (Política nacional de resíduos sólidos—Brazilian national solid waste policy) requirements and other current legislation.

To access a list of the locations for safe disposal of mobile devices, batteries and accessories, refer to this page: www.motorola.com/recycling.

This product is RoHS compliant.

Instructions for appropriate environmental disposal

Look for one of the recycling bins. You can check the locations of the bins here: www.motorola.com/recycling.

1. Remove the SIM Card and, if necessary, disable your cell phone with the operator.
2. Remove or delete your personal data from the cell phone.
3. Disconnect the cell phone before disposing of it in a recycling bin.

Recycling packaging. All packaging from Motorola devices can be recycled and can be disposed of at selective collection points.

Important: When disposing of your mobile device, battery or accessory in a recycling bin, you acknowledge and agree that you are giving the discarded items, irrevocably, permanently and irreversibly, to the reverse logistics system manager, and that any data that may be stored on the handset and/or accessories will be destroyed in the recycling process, so requests for recovery of this data cannot be met in any circumstances, with the manufacturers and/or third parties appointed by them being completely exempt from any type of liability or duty to provide compensation.
