#### ■ SW section

For this particular Motorola project all SKUs will be sharing the same SW version. The main differences exist per SKUs are related to RF Bands supported, Regarding the SW/FW, there is NOT much difference between SKUs. Note that specific features are enabled via MCFG depending on SIM Card inserted to device, as the lab tests are usually performed with a base FSG setup, we should not expect differences on the protocol level between all SKUs.

The software difference between XT1970-2 and XT1970-1:

- ✓ XT1970-2 supports single SIM card, XT1970-1 support dual SIM Cards.

The software difference between XT1970-3 and XT1970-1:

- ✓ XT1970-3 supports single or dual SIM SIM card , XT1970-1 support dual SIM Cards.
- ✓ Different on RF supporting band configuration(See HW difference)

#### ■ Mechanical section

There is no difference in mechanical design and materials used for all SKUs of Potter. There are differences in terms of memory configuration and number of SIM's supported across different SKUs.

Region	RF SKU	SIM	Memory
LATAM	LATAM SKU	SS	4+128GB
		DS	
SuperROW	ROW SKU	SS	4+128GB
		DS	

Except for differencelisted above:

- RF trace: same across latam,super-row skus.
- PCB layout: same across latam,super-row skus.
- PCBA: for any DS/SS models under the same SKU the same PCBA will be used. For example, latam DS/SS will share the same PCBA and the only difference is that SS model will have only one SIM slot. PCBA of each SKU is unique because the RF components will differ from SKU to SKU.
- WLAN/BT/GPS/Diversity antenna type, antenna pattern, antenna location, antenna matching value and chipset: Same across latam,super-row skus.

- NFC antenna type, antenna pattern, antenna location and chipset: Same across latam,super-row skus.
- Main antenna 01, covers 699~960 MHz and 1710~2700 MHz, is sharing the same antenna pattern, location , matching and chipset with all SKUs.

Except listings above, the others are all the same.

Should you have any questions or comments regarding this matter, please have my best.
