**Statement Reference 911 Access**

Telecommunication Certification Body (TCB), BABT Product Service, Program AP # 0526 identified the question of 911 access as a subject which required a statement from Motorola GSD as the manufacturer of the equipment. Motorola's formal response is given below, to the best of our knowledge in the response given is accurate and meets the intent of CFR 47.

The GSM system provides a feature called Emergency Pre-emption that allows the GSM system to give priority routing for emergency calls including dropping low priority calls to allow access to the network for emergency calls.

Details of Emergency Call Handling are contained within the GSM specifications:

3rd Generation Partnership Project; Technical Specification Group Services and System Aspects; Service accessibility (3GPP TS 02.11)

Digital cellular telecommunications system (Phase 2+); Mobile radio interface layer 3 specification (3GPP TS 04.08)
