Subject: FCC ID: IKQFMTRNS01

Mr. Madlangbayan:

In order for processing of this application (FCC ID: IKQFMTRNS01) to continue, the following issue(s) will have to be addressed:

- 1) The sample FCC ID label must show the actual FCC ID.
- 2) Please indicate whether measurements were performed with the input signal adjusted to the maximum that the EUT will allow. All measurements must be performed under this condition.
- 3) The band-edge plots for this rule part should show compliance of any emissions outside of the 200 kHz band of the center frequency(ies) of the device. All emissions outside of the 200 kHz band(s) must meet the limits contained in section 15.209. The plots submitted only showed the band edges of the allowed band of 88-108 MHz.
- 4) The block diagram submitted is not sufficient. It must show the frequency of all clocks/oscillators within the device, and its signal routing within each block, as described in section 2.1033(b)(5).
- 5) The operational description should contain more detail. It should describe the typical usage of the device, and how it works, as well as to what it typically connects.
- 6) The internal photographs submitted do not show enough detail. Please submit new pictures, which clearly show the components and traces. Multiple pictures of each side of the board may be necessary due to the small components.

The item(s) indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Please upload responses and/or exhibits to the electronic filing website. Your correspondence number is IKQFMTRNS01.

Best regards,

Scott McCutchan
