FCC ID: IMA-P2086A

Dear Sir/Madam,

Technisonic understands the following Part 90 UHF spectrum and would like the FCC to certify the entire 403 to 470MHz spectrum to include the part 90 extended frequencies. This would be done to facilitate the requirements of agencies covered under NTIA spectrum usage. Government agencies complying with the NTIA instead of the FCC must purchase their equipment from private industry manufacturers who are governed by FCC rules. The conflict in spectrum allocation detracts from the options available to government agencies for commercial off the shelf equipment which meets their required specifications such as the requirements stated in the Department of the Interior's Narrowband digital radio contract.

Part 90 frequencies for UHF mobile transceiver:

406.1-410 MHz Mobile Part 90
410-420 MHz Mobile Part 90
450-454 MHz Land Mobile Part 90
456-460 MHz Land Mobile Part 90
460-462.5357 MHz Land Mobile Part 90
462.7375-467.5375 MHz Land Mobile Part 90
467.7375-470 MHz Land Mobile Part 90

Part 90 extended frequencies:

454-455 MHz Part 22 or 80
455-456 MHz Part 74
462.5375-462.7375 MHz Part 95
467.5375-467.7375 MHz Part 95

Regards

George Paclik
