FCC ID: IMA-TDFM-7300-2

Dear Sir/Madam,

Technisonic understands the following Part 90 UHF spectrum and would like the FCC to certify the entire 403-512MHz spectrum to include the part 90 extended frequencies. This would be done to facilitate the requirements of agencies covered under NTIA spectrum usage. Government agencies complying with the NTIA instead of the FCC must purchase their equipment from private industry manufacturers who are governed by FCC rules. The conflict in spectrum allocation detracts from the options available to government agencies for commercial off the shelf equipment which meets their required specifications such as the requirements stated in the Department of the Interior's Narrowband digital radio contract.

Part 90 extended frequencies:

406.1 – 410.0 MHz
410.0 – 420.0 MHz
450.0 – 454.0 MHz
456.0 – 460.0 MHz
460.0 – 462.5375 MHz
462.7375 – 467.5375 MHz
467.7375 – 470.0 MHz
470.0 – 512 MHz

Regards

Steve McIntosh
Engineering Manager
