

TCB RF Exposure Review Procedure Statement
FCC ID:IMK-HRFUSB2

Transmitter Category	Device Type	Product Category	Approval and Review Procedures Used	Specific Procedures:
VI	Wireless LAN Bridge	Part 15 Mobile Transmitters	Section F	SP(1), SP(3),SP(5), SP(7), SP(8), SP(9)
Grant Conditions – The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance.				
SP1	Output power measured with Power meter :86.8dBm@high channel. 0dBi antenna gain. Antenna is build in the device.. No antenna cable connection is needed. This device is intended to be connected to Personal Computer via USB cable. No duty cycle consideration.			
SP3	RF exposure compliance statement can be found in User Manual The RF exposure languages stated in this document comply with the requirement.			
SP5	Total 79 hopping channels for Open Air mode, total 75 hopping channels for Home RF mode.. Frequency Range : 2402 – 2480 MHz.. .			
SP7	No antenna installation is allowed by end user.			
SP8	User Manual has provided adequate instruction on how to connect the device to the Personal computer.			
SP9	TCB has reviewed the Grant conditions and has determined the Grant conditions are applicable to the device.
