

The image shows a black, curved object, possibly a component of a device, lying on a light-colored, textured surface. The object has a smooth, curved top edge and a slightly wider base. On the front surface, there is a small, stylized logo consisting of a series of parallel lines forming a shape similar to a lowercase 'x' or a stylized 'p'. To the right of this logo, the word "proxim" is printed in a lowercase, sans-serif font. The background is a light gray, textured surface, possibly a piece of paper or fabric, with some minor smudges and a vertical crease.
