To whom it may concern,

The SAR test reports which have been submitted as part of the application for FCC ID: IMRAPPC2411R are to be superceded by this statement and should not be reviewed by the FCC since the conducted output power is less than 50 mW (reference OET Bulletin 65, Supplement C (Edition 01-01), Section 3, Footnote 14)

While the conducted output power is 32 mW, the FCC does not require the submittal of SAR test reports with reference to OET Bulletin 65, Supplement C (Edition 01-01), Section 3, Footnote 14.

Yours sincerely,  
TNO Certification EPS
