

Model Differences Letter

FCC ID: IN2TX36

- **K1131-01** (same as K1403 with different shape and color). Same PCB and radio, just a difference in plastic.
- **K1131-02** (K1131-01 with Hunter logo).
- **K1403-01** (same as 99116 in current IC certificate). 99116 is the transmitter/receiver accessory P/N, K1403-01 is the transmitter only. This is a Part number change.
- **K1403-02** (same as 99116 in current IC certificate in white finish). Same PCB and radio, just a difference in plastic.
- **K8635-01** (same as 99116 with different touch pad and color). Same PCB and radio. The function of the buttons are different, this is done with software in the transmitter and receiver. One button now controls the color temperature of the LED module that comes with the ceiling fan.
