RE: ATCB005488

FCC ID: IN2TX73

I have a few comments on this application. Depending on your responses, kindly understand there may be additional comments.

1. It is required to put the crystal oscillator with frequency value on your block diagram according to the FCC 2.1031.
"FCC 2.1031 (5) A block diagram showing the frequency of all oscillators in the device.
The signal path and frequency shall be indicated at each block. The tuning range(s) and intermediate frequency(ies) shall be indicated at each block."
2. Please indicate where I may find the 15.21 Information to User statement in the Manual.
"Section 15.21 Information to user.
The users manual or instruction manual for an intentional or unintentional radiator shall caution the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment."

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
