Related to product:

Type of equipment:	Heart Rate Sensor
Brand name:	Polar
Model:	2R
FCC ID:	INW2R
IC:	6248A-2R

Subject: applicable approval procedures for equipment authorization for our device Polar model 2R.

To whom it may concern,

Our device is an intentional radiator, Bluetooth LE working @2.4 GHz hence, we requested certification under DTS class of equipment.

The device is also a Class B personal computers and peripherals because of the USB data port, so we requested a grant of certification for JBP class of equipment.

As the module is also considered as "Other Class B digital devices & peripherals" and there is no equipment class for this yet, we'll be following the classic approach of the Verification procedure, still valid until November 2018, for this type of device classification.

We as manufacturer took the necessary steps to ensure that the equipment complies with the appropriate technical standards.

Sincerely,

By:	Pentti Pärnänen	 PA
