

Polar Electro Oy declares under our sole responsibility that the device:

Type of equipment: Power output sensor
Brand name: Polar LOOK
Model name: Kéo Power
FCC ID: INWV3
IC: 6248A-V3
Japan: R203-JN0127

has changed by adding new RF frequency band 2479 MHz. Change is done with the software and hardware stays equal with the initially approved device.

Conclusion:

- Hardware stays equal with the original device. The indicated change does not affect original 2477 MHz frequency band and 2477 MHz RF/EMC performance of the device.
- New RF-frequency band are fully tested according product change rules. And it complies applicable country specific requirements after the change.
