Inquiry:

Hello, I am seeking guidance on a device where the FCC ID is shown on a removable part of the case. Removal of the case part will cause the transmitter to cease functioning and it will no longer transmit without the labelled part attached. In addition, the Grantee has put the FCC ID into an on-screen menu, such that the FCC ID can be observed on the screen of the device. We think this is a good solution to meet Part 2.925 (f) but would like to confirm with the FCC before we proceed. Thank you, Michael.

Response:

The FCC ID on the watch is acceptable.
