RE: Chic Technology Corporation
FCC ID: IOW1420

We have a few items that need immediate attention.

- 1.) Neither the Schematics nor Block Diagrams will open properly with my Adobe Acrobat. I am using Version 4.05a with all the possible fonts and plugins I could get from Adobe. Please see if the files can be presented in a different format. It might be possible for you to print then out locally , re-scan, and finally convert to *.pdf again. Please advise.
- 2.) The file "TSup_IOW1420.pdf" appears to have been mistakenly uploaded twice as both the test report and test setup photos. No test report was received. Please submit the correct file.
- 3.) It appears the test setup photos were taken in a shielded room and not during final measurements as required. Please submit
- 4.) In the test report please don't forget to confirm if the EUT was tested in three orthogonal planes.
- 5.) Please check with your client the contact information (below). This comes from the FCC Grantee Code search

GRANTEE CODE =
