RE: Request for Confidentiality, FCC ID IP9ECHO-TX9A

This letter is to request that all applicable documents with the application for FCC Type Certification for IP9ECHO-TX9A be noted as Confidential and withheld from public disclosure.

This request is concurrent with the FCC rules (section 0.457(d)) and the Freedom of Information Act (section 0.552(b)(4)).

Public disclosure of the design information would put Tactical Technologies Inc. at a disadvantage competitively.

Thank you very much for your attention to this.

Sincerely,

Jeffrey Olsen
Engineer
Tactical Technologies Inc
