Equipment Authorization Division

**RE: Request for Confidentiality, *FCC ID IP9ECHO5***

This letter is a request to hold the following documents pertaining to the application for FCC Type Certification for *IP9ECHO5* as confidential and to withhold them from public disclosure.

This request is concurrent with the FCC rules (section 0.457(d) and section 0.459) and the Freedom of Information Act (section 0.552(b)(4)).

The documents are:

- 1.) All schematic diagrams
- 2.) All circuit descriptions

Public disclosure of these pieces of design information would put Tactical Technologies Inc. at a substantial disadvantage competitively.

Thank you very much for your attention to this.

Sincerely,

Jeffrey Olsen  
Engineer  
Tactical Technologies Inc
