1435 Oakland Mills Road
Columbia, MD 21046

Date: July 26, 2013

SUBJECT: FCC Application for IPH-02176

To Whom It May Concern:

Regarding FCC ID label placement for this application, Garmin wishes to place the label inside the battery compartment since there is no suitable location otherwise. This device is very small with many curved surfaces. The top and sides are taken up by the removable battery cover and the remainder of the device does not have sufficient size to allow for the minimum required size 4 point font text. This location will offer and ensure the end user opportunity to view the label before operation. The identifier label will be readily viewable each time the battery is removed or replaced. The equipment is sold without the battery installed offering the end user exposure to the label before operation. This location will help ensure the longevity of the label as this equipment may be in service in harsh environments.

Sincerely,

A handwritten signature in blue ink, appearing to read "Van Ruggles", written over the word "Sincerely,".

Van Ruggles
Director, Quality Assurance and Certification
