NOV - 5 2018

Mr. Andy Leimer
Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

Dear Mr. Leimer:

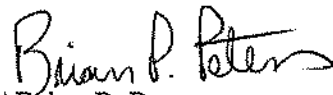

The Federal Aviation Administration, Spectrum Engineering Services Group received the notification letter of its filing with the Federal Communications Commission (FCC). The application is for certification of the Garmin GMN-01216 (market label GTX 345D, GTX 345DR) with FCC ID: IPH-0225612.

Garmin should be aware that the 2.4 GHz wireless connection cannot be used for any critical aircraft function, such as control, nor should it cause harmful interference to critical aircraft functions. Also, the user must accept any harmful interference that it caused to the 2.4 MHz connection.

We have completed the review process of the information submitted by Garmin. We have concluded that we have no objection to the FCC granting certification for this equipment.

If you require any additional information, please contact Mr. Ian Atkins, Group Manager, Spectrum Engineering Services Group, at (202) 267-7531 or e-mail ian.atkins@faa.gov or Mr. Jae Shin, Electronics Engineer, Spectrum Planning and International Team, at (202) 267-7365 or via e-mail jae.w.shin@faa.gov.

Sincerely,

Brian P. Peters
Acting Director
Operations Support
