Re: FCC ID: IPH-02865 application FCC ID label location

To whom it may concern:

Regarding FCC ID label placement for this application, Garmin wishes to place the label inside the battery compartment due to size, aesthetics, and durability. The equipment is sold without the battery installed offering the end user exposure to the label before operation. This location will offer and ensure the end user opportunity to view the label before operation. The identifier label will be readily viewable each time the battery is removed or replaced. This location will help ensure the longevity of the label as this equipment may be in service in harsh environments.

Sincerely,

A handwritten signature in black ink that reads "John P. Farley".

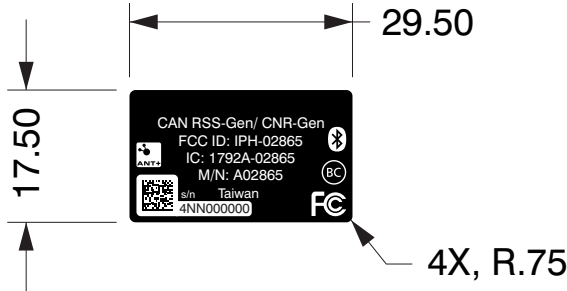

John P. Farley

Lead Compliance Engineer
