To Whom It May Concern:

This project involves request for filing Class 2 Permissive Change for the Garmin product FCC ID: IPH-03337. The original Authorization was issued 09/29/2017. The change of the device was to add passive camera sensor to the product. The transceiver board remains identical as original application and additional emission testing confirmed the modification would comply with Class 1 permissible change. Garmin requests we file this as Class 2 change to provide complete disclosure of the product. The form 731 and C2PC application have been electronically submitted and any attachments will be up loaded to your web site for use in processing C2PC.

Should you require any further information, please contact the undersigned.

Thank you for your consideration in this matter.

Sincerely,

Scot Rogers
