Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046
USA

Date: 12 October 2023

Ref: Cover letter (C2PC)

FCC ID: IPH-03911

To whom it may concern:

Changes to IPH-03911 include passive component value changes to improve the manufacturing process, component substitution to reduce cost, and enclosure changes to reduce cost. Minor PCB layout changes accompany a few of the component substitutions. Also, a new SoC has been incorporated in the design. However, these hardware changes do not affect the SAR and/or RF field strength limits previously calculated.
