Garmin International has spent a substantial effort in developing this product and it is one of the first of its kind in the industry. Having the subject information easily available to "competition" would negate the advantage we have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

Permanent Confidentiality:

Garmin requests the exhibits listed above as permanently confidential be permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.

Short-Term Confidentiality (if applicable):

The applicant requests the exhibits selected above as short term confidential be withheld from public view for a period of <mark>45 days</mark> from the date of the Grant of Equipment Authorization and prior to marketing. This is to avoid premature release of sensitive information prior to marketing or release of the product to the public.

Sincerely,

Jonith PSky

Jonathan P. Shafer Design Certification Engineer
