Subject: Extended Frequencies Justification for Certification of Transmitter with FCC ID: IPH-A2047

Dear Sir/Madam,

This transmitter was designed to operate in following frequency ranges: 156.025-157.425MHz
To aid equipment authorization in other countries which accept the United States FCC Grant for Certification, Garmin International Inc. is requesting that the FCC lists the frequencies 156.025-157.425MHz, under FCC Rule Parts 80 on the FCC Grant.

Garmin International Inc. attests that the Marine Black Box VHF Radio will not be marketed to USA users with the frequency band which is not allowed by the rule Parts 80. Per the FCC's KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.

Frequency Range(MHz)	FCC Rule Part
156.025-156.2475	For Federal
156.2475-157.1875	FCC Part 80
157.1875-157.45	FCC Part 80
157.45-161.575	FCC Part 80
161.575-161.625	FCC Part 80
161.775-161.9625	FCC Part 80
161.9625-162.0375	FCC Part 80
163.275	For Federal

Also, equipment programming is the responsibility of Authorized Service Personnel, the Marine Black Box VHF Radio complies with 47 CFR Part 80, in that the operator cannot directly program the transmit frequencies using the normally accessible external controls.

Please contact me if you require any additional information.
Sincerely Yours,

Signature:
