SUBJ: GMR40xXHD Radar Tune-Up

Scot Rogers,

The transceiver functional performance is evaluated during production and final tested on a pass or fail basis. Equipment in compliance with production requirements continue while noncompliant equipment removed from production. There are no user tunable capabilities offered. Any device that fails in the field will require return to a Garmin service center.

Sincerely,

A handwritten signature in black ink, appearing to read "Cheryl D. White".

Cheryl D. White

Sr. Compliance Engineer
