Subject: Attestation for Modular Transmitter under FCC ID: IPH-03302

To Whom It May Concern:

This attestation is for a single-modular transmitter that is a self-contained, physically delineated, component for which compliance is demonstrated independent of the host operating conditions, and which complies with all eight requirements of § 15.212(a)(1) as summarized below.

- 1) The radio elements have the radio frequency circuitry shielded. Any physical components or tuning capacitors located external to the shield are on the module assembly.
- 2) The module has buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal within specification.
- 3) The module contains power supply regulation on the module.
- 4) The module contains a unique antenna interface, and is marketed to be operated only with specific antenna(s), per §§ 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b);
- 5) The module demonstrates compliance in a stand-alone configuration;
- 6) The module is labeled with its permanently affixed FCC ID label.
- 7) The module complies with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions.
- 8) The module complies with RF exposure requirements.

Sincerely,
