The image shows a custom electronic circuit board with the following components and labels:

- ICs:** A large integrated circuit labeled **EC355** (9840/1015P2) is mounted in the center. To its left is another IC labeled **711-5981**. Below these are two smaller ICs labeled **U1** and **U2**.
- Resistors:** Labeled **R1**, **R2**, **R3**, **R4**, **R5**, **R6**, and **R7** are distributed across the board.
- Capacitors:** A large electrolytic capacitor labeled **C1** is on the left. Other capacitors are labeled **C2**, **C3**, **C4**, **C5**, and **C6**.
- Other Components:** A variable component labeled **B** is on the left. A component labeled **V1** is on the right. A component labeled **D** is near the center.
- Connectors:** A multi-pin connector labeled **J1** is at the top. A component labeled **HS** is at the top right.
- Wiring:** Numerous jumpers and wires connect the components. A thick, light-colored cable is plugged into the left side.
- Labels:** The board has several labels including **U1**, **U2**, **R1**, **R2**, **R3**, **R4**, **R5**, **R6**, **R7**, **C1**, **C2**, **C3**, **C4**, **C5**, **C6**, **B**, **V1**, **D**, **J1**, **HS**, **EC355**, **9840/1015P2**, and **711-5981**.
