amanTag®

ATA 1 tag quick start guide

Also applies to:

BTA1, PSA1, UTA1,UTA2,UTA3

1 Package contents

- amanTag ATA 1 tag
- Quick start guide

2 Tag installation

The tag must be installed by a trained amanTag system administrator. The tag will be automatically added to the database of a pc-based system when installed within range of an amanTag receiver.

3 Using the Tag

The tag can be attached as follows:

- On a keyring
- As an amulet

Once properly installed the Tag functions automatically providing the system with activate/response data to locate its position. The user or equipment need do nothing else; just carry the Tag with the item or person to be position located.
