

Request for Modular Approval

FCC ID: IXMBMGPCS08A

Item	Requirements	EUT
1	The modular transmitter must have its own RF shielding.	The radio portion of this module has been shielded, please see exhibition external photo.
2	The modular transmitter must have buffered modulation / data inputs.	The EUT has buffer modulation / data inputs.
3	The modular transmitter must have its own power supply regulation.	The EUT has its own power supply regulation.
4	The modular transmitter must comply with the antenna requirements of the Section 15.203 and 15.204(c).	The EUT meets the FCC antenna requirements. The spurious emission, no antenna connector and photo of antennas are shown in the External and Internal photos.
5	The modular transmitter must be tested in a stand-alone configuration.	The BT module was tested on demo board without any cover on it.
6	The modular transmitter must be labeled with its own FCC ID number.	The BT module will be labeled with its own FCC ID.
7	The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.	The copy of the instructions will be included in the integration guide.
8	The modular transmitter must comply with any applicable RF exposure requirement.	The modular transmitter complies with RF exposure.
