Re: Certification for Marquardt GmbH CE1

IC: 2701A-CE1

If necessary, we have enclosed application materials for certification of Marquardt GmbH CE1. It has been verified to comply with ISED RSS-210v10/GENv5.

Current Variants:

There is only one variant of the EUT as tested. The EUT utilizes 2 different types of potted transmitting coils: CONSOLE/IMMO antenna (only includes a ferrite coil) and an LF/STANDARD antenna (includes a tuning capacitor along with the ferrite coil). There are a total of 3 LF and 1 CONSOLE antennas populated with the EUT.

If there are any questions regarding the application or testing performed, please contact us at the above address or call (734) 252-9785, or e-mail info@wrtest.com.
