Gentlemen:

On behalf of Fuji Xerox Corporation Limited, 7-1 Funai 3-Chome, Iwatsuki-shi, Saitama-ken, Japan 339 please find the attached Equipment Authorization application for a Low Power Communications Device operating on a frequency of 125 kHz. The low power transmitter is installed within the printer as part of the assembly and is used to provide readout of the level of toner remaining in the printer toner cartridge.

The printer is a peripheral to a personal computer and has been verified as compliant with the digital device requirements.

Sincerely,

Phillip Inglis
