Subject: Request for a Class II Permissive Change for the  
Xircom, Inc.  
MPCI Type 3A 802.11B Wireless + V.92 Modem Card  
Model: M3AWEB56GA

**FCC ID: J3OM3AWEB56GA**

Gentlemen:

We have enclosed a package for a class II permissive change. The reason for the Class II Permissive Change is because they are adding a different antenna and that it will be used in an IBM system. The layout and components for the EUT have not changed. Please add this antenna and system as part of modular approval already granted for the FCC-ID: **J3OM3AWEB56GA**.

Compatible Electronics, Inc. is submitting this on behalf of Xircom, Inc. The testing was done at IBM Japan. For any technical questions, please contact IBM Japan. The 731 form will show IBM Japan as the technical contact. We will list Compatible Electronics, Inc. as a non-technical contact.

We have enclosed the completed Form 731 with the applicable exhibits.

If you have any questions or need any additional information, please give me a call at (714) 579-0500.

Sincerely,

Kyle Fujimoto  
Test Engineer
