Subject: FCC ID: J69303MICA

Mr. Hansen:

In order for processing of this certification application (FCC ID: J69303MICA) to continue, the following issue(s) will have to be addressed:

- 1) Please provide another sample label. The statement on the label is not correct.
- 2) Please provide a new diagram or photo showing the location of the FCC label. The one provided is not clear enough.
- 3) Please provide correct schematics. The schematics provided do not have values for all components and some components have an incorrect value when compared to the internal photos.
- 4) Please provide a correct user manual. The user manual provided does not include the correct statements.
- 5) Please provide a complete test report. The test report submitted does not contain enough information regarding the duty cycle.

The item(s) indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Please upload responses and/or exhibits to the electronic filing website. Your correspondence number is FCC ID: J69303MICA-1.

Best Regards,

Mike Christensen
