subject Qualcomm Incorporated, FCC ID: J9C-65VE239P2, Assessment NO.: AN07T7251&AN07T7252, Notice#1
This is a combined notice for AN07T7251 & AN07T7252. All items except Q4 are relevant to both applications. I am sending this to you with cc: to Thu as all items relate to documentation.
Q1. User manual makes reference to SAR test, but no SAR test data was included with the application. Please remove the SAR statement from the user
manual, page 22. Add at least general installation instructions and conditions for OEM's regarding RF exposure. Q2: The modular request letter also makes reference to SAR testing. SAR test data was not included with the application. Please revise the modular
request letter to remove reference to SAR testing and include acknowledgement that compliance with RF exposure requirements is the responsibility of the grantee and will be addressed for all final host configurations.
Q3: The label document does not show the location of the label on the device. Please provide a revised label document.
Q4: (15E APPLICATION ONLY) Please provide an attestation from the grantee verifying that the device does not have Ad Hoc capabilities on non-US
frequencies and on DFS frequencies.
Best regards,
Tim Dwyer
The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial
responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

subject Re: Qualcomm Incorporated, FCC ID: J9C-65VE239P2, Assessment NO.: AN07T7251&AN07T7252, Notice#1 mailed-by gmail.com
Hi September,
Please ask Mike H. to take a look at the DFS report in AN07T7252 to see if it should have been DFS tested in both 20 and 40 MHz bandwidths.
Best regards

Hi again,
Tom C. is here at the workshop. Per Mike K., Tom was involved in this one so I will check with him also. Reason is that FCC listed this as an area that they were scrutinizing. I thought it did not apply to client only devices without radar detection, but it appears to be applicable.

subject Re: Qualcomm Incorporated, FCC ID: J9C-65VE239P2, Assessment NO.: AN07T7251&AN07T7252, Notice#1 mailed-by gmail.com
Hello September,
The following should be added as item Q5: After additional research and review, it will be necessary to revise the application and exhibits to remove all
reference to 40 MHz bandwidth operation. Please revise the application and and any exhibits that include 40 MHz bandwith information.
Best regards,
Tim Dwyer

subject RE: Qualcomm Incorporated, FCC ID: J9C-65VE239P2, Assessment NO.: AN07T7251&AN07T7252, Notice#1 Hi Tim,
Below are the answers to your questions on the referenced application.
Q1. User manual makes reference to SAR test, but no SAR test data was included with the application. Please remove the SAR statement from the user
manual, page 22. Add at least general installation instructions and conditions for OEM's regarding RF exposure.
<ccs answer:=""> SAR reference removed from end-user Installation and User Guide. General installation instructions for ODMs/OEMs regarding RF exposure in the Product Specification and Modular Installation Instructions Manual.</ccs>
Q2: The modular request letter also makes reference to SAR testing. SAR test data was not included with the application. Please revise the modular
request letter to remove reference to SAR testing and include acknowledgement that compliance with RF exposure requirements is the responsibility of the grantee and will be addressed for all final host configurations.
<ccs answer:=""> SAR reference removed from Modular Request letter. Compliance with RF exposure requirements added as item 8.</ccs>
Q3: The label document does not show the location of the label on the device. Please provide a revised label document. <ccs answer:=""> Placement for internal and external labels added to Regulatory Label document.</ccs>
Q4: (15E APPLICATION ONLY) Please provide an attestation from the grantee verifying that the device does not have Ad Hoc capabilities on non-US
frequencies and on DFS frequencies. <ccs answer:=""> Ad Hoc Attestation Letter attached.</ccs>
Q5: (15 E Application only) Please add a note in the user manual that operation in the 5150-5250 MHz band is limited to indoor use.
<ccs answer:=""> Added to footnote in end-user Installation and User Guide about channel usage.</ccs>
Thanks and best regards, September
September Radecki

Reply -Forward Invite September to Gmail hide details Oct 15 (23 hours ago) from September Radecki <september.radecki@ccsemc.com> to Tim Dwyer - TCB <Timothy\_Dwyer@ieee.org> date Oct 15, 2007 12:36 PM subject RE: Qualcomm Incorporated, FCC ID: J9C-65VE239P2, Assessment NO.: AN07T7251&AN07T7252, Notice#1 Hi Tim,

Q1. User manual makes reference to SAR test, but no SAR test data was included with the application. Please remove the SAR statement from the user manual, page 22. Add at least general installation instructions and conditions for OEM's regarding RF exposure.

<CCS Answer:> Revised User Manual is attached.

Q2: The modular request letter also makes reference to SAR testing. SAR test data was not included with the application. Please revise the modular request letter to remove reference to SAR testing and include acknowledgement that compliance with RF exposure requirements is the responsibility of the grantee and will be addressed for all final host configurations. <CCS Answer:> Revised Modular Request Letter is attached.

Q3: The label document does not show the location of the label on the device. Please provide a revised label document. <CCS Answer:> Revised label exhibit attached.

Q4: (15E APPLICATION ONLY) Please provide an attestation from the grantee verifying that the device does not have Ad Hoc capabilities on non-US frequencies and on DFS frequencies. CCS Answer:> Revised AdHoc Attestation exhibit is attached.

Revised DTS and UNII Reports are attached as well as MPE Reports. This should be everything!

Thanks and best regards, September

September Radecki **Compliance Certification Services** 47173 Benicia Street Fremont, CA 94538 phone: 1-510-771-1090 fax: 1-510-661-0888 September.Radecki@CCSEMC.com

September Radecki to Tim show details 2:22 pm (51 minutes ago) M

I'm SO sorry this has turned into such a freak application. Now I have just looked over the ID Label and Location document previously sent and it violates their request for short term confi so I've prepared a new one which is attached here. Also, please replace the Theory of Operations with the one attached here because they changed a note at the bottom of page 2. I have a product specification document that is new, not sure what changed, but I don't know if you need that. If you do, please advise.

Their goal is now to get the grant by Friday... if we can beat that (and get the exhibits to stop changing) that would rock.

Thanks in advance! Best regards, September - Show quoted text -
